WAKE FOREST COLLEGE

HIGH SCHOOL PREPARATION IN ENGLISH

Name..... School.....

Number of years in High School in which English has been studied

Number of recitations per week.....

Underscore twice the names of classics studied in detail in class.

Underscore once the names of classics read but not studied.

CLASSICS FOR STUDY AND PRACTICE IN CLASS
(Note.—One book is required from each of the four groups.)

Group I—DRAMA. Shakespeare's (1) *Julius Cæsar*, (2) *Macbeth*, or (3) *The Merchant of Venice*.

Group II—POETRY. (1) Milton's *L'Allegro*, *II Penseroso*, and either *Comus* or *Lycidas*; (2) Tennyson's *The Coming of Arthur*, *The Holy Grail*, and *The Passing of Arthur*; (3) *Palgrave's Golden Treasury* (First Series), Book IV.

Group III—ORATORY. (1) *Burke's Conciliation With America*; (2) *Washington's Farewell Address* and *Webster's First Bunker Hill Oration*; (3) *Macaulay's Two Speeches on Copyright* and *Lincoln's Speech at Cooper Union*.

Group IV—ESSAYS. (1) *Carlyle's Essay on Burns*, with a selection from *Burn's Poems*; (2) *Macaulay's Life of Johnson*; (3) *Emerson's Essay on Manners*.

CLASSICS FOR READING

Ten units, two from each group, are required. The units are set off by semicolons and numbered.

Group I—CLASSICS IN TRANSLATION. (1) Selections from the Old Testament; (2) *The Odyssey*, omitting, if desired, Books I-V, XV-XVII; (3) *The Iliad*, omitting, if desired, Books XI, XIII, XIV, XV, XVII, XXI; (4) *Vergil's Æneid*.

For any selection from this group a selection from any other group may be substituted.

Group II—DRAMA. (1) Shakespeare's *Merchant of Venice*; (2) Shakespeare's *Midsummer-Night's Dream*; (3) Shakespeare's *As You Like It*; (4) Shakespeare's *Twelfth Night*; (5) Shakespeare's *Henry V*; (6) *Shakespeare's *Julius Cæsar*; (7) Shakespeare's *King John*; (8) *Shakespeare's *Macbeth*.

Group III—PROSE FICTION. (1) George Eliot's *Silas Marner*; (2) Goldsmith's *Vicar of Wakefield*; (3) either Scott's *Ivanhoe* or Scott's *Quentin Durward*; (4) Dickens' *Tale of Two Cities*; (5) Stevenson's *Treasure Island*; (6) Swift's *Gulliver's Travels*; (7) Cooper's *Last of the*

Mohicans; (8) Defoe's *Robinson Crusoe*, Part I; (9) Hawthorne's *House of the Seven Gables*, *Twice-Told Tales*, or *Mosses from an Old Manse*; (10) Thackeray's *Novels*, any one; (11) Mrs. Gaskell's *Cranford*; (12) Malory's *Morte d'Arthur*; (13) Bunyan's *Pilgrim's Progress*, Part I; (14) Frances Burney's *Evelina*; (15) Jane Austen's *Novels*, any one; (16) Miss Mitford's *Our Village*; (17) Kingsley's *Westward Ho!* or *Hereward the Wake*; (18) Read's *The Cloister and the Hearth*; (19) Blackmore's *Lorna Doone*; (20) Hughes's *Tom Brown's School Days*; (21) Poe's *Selected Tales*; (22) A collection of *Short Stories* by various writers.

Group IV—ESSAYS, etc. (1) Sir Roger de Coverley Papers or Selections from *The Tatler* and *The Spectator*; (2) Franklin's *Autobiography*; (3) Irving's *Sketch Book*, or *Life of Goldsmith*; (4) Macaulay's *Essay on Lord Clive*, *Warren Hastings*, *Milton*, *Addison*, or *Goldsmith*; (5) Thackeray's *English Humorists*; (6) Selections from *Lincoln's Addresses and Letters*; (7) Lamb, selections from the *Essays of Elia*; (8) Ruskin's *Sesame and Lilies*; (9) Parkman's *Oregon Trail*; (10) Thoreau's *Walden*; (11) Huxley's *Autobiography* and extracts from *Lay Sermons*; (12) Stevenson's *Inland Voyage* and *Travels with a Donkey*; (13) Boswell's *Life of Johnson*; (14) Southey's *Life of Nelson*; (15) Lockhart's *Life of Scott*; (16) Trevelyan's *Life of Macaulay*; (17) Dana's *Two Years Before the Mast*; (18) Lowell's *Selected Essays*; (19) Holmes's *The Autocrat at the Breakfast Table*; (20) Essays by Bacon, Lamb, De Quincey, Emerson, etc.; (21) Letters by various writers.

Group V—POETRY. (1) Goldsmith's *Deserted Village* and *The Traveler*; (2) Coleridge's *Ancient Mariner*, *Christabel* and *Kubla Khan*; (3) Scott's *Lady of the Lake*; (4) Macaulay's *Lays of Ancient Rome*, *The Battle of Naseby*, *The Armada*, *Ivry*; (5) Tennyson's *The Princess*, or *Gareth and Lynette*, *Lancelot and Elaine*, and *The Passing of Arthur*; (6) Browning's *Select Poems*; (7) Arnold's *Sohrab and Rustum* and *The Forsaken Merman*; (8) Byron's *Childe Harold*, *Canto III* or *IV* and *Prisoner of Chillon*; (9) *Palgrave's Golden Treasury* (First Series), Books II and III; (10) Pope's *The Rape of the Lock*; (11) *English and Scottish Ballads*; (12) Selections from *American Poetry*; (13) *Palgrave's Golden Treasury* (First Series), Book IV (if not chosen for study).

* If not chosen for study.

May 18-25—Spring Term Examinations.

May 25—Wednesday, 3:30 p. m., Annual Meeting of the Board of Trustees. 8:30 p. m., Baccalaureate Sermon.

May 26—Thursday, 11 a. m., Annual Literary Address; 8:30 p. m., Address before the Alumni; 9:30 p. m., Senior Reception.

May 27—Friday, 11 a. m., Commencement Day. Addresses by representatives of the Graduating Class, Confering of Degrees, Baccalaureate Address, and Closing Exercises of the Session.

History

Wake Forest College had its beginning in "The Wake Forest Institute," a manual labor and classical school, chartered in 1833 and located in the "forest" of Wake County, some 18 miles north of Raleigh. Samuel Wait, a native of New England, was chosen principal, and the school was opened February 3, 1834, with 16 pupils.

In 1838 the Institute was rechartered as "Wake Forest College." Dr. Samuel Wait was elected president and continued to direct the struggling fortunes of the institution until 1845. The story of his zeal and industry in behalf of the College forms an inspiring chapter in the history of Southern Baptists.

Under the administration of Dr. William Hooper, 1845-1849, and Professor John B. White, 1849-1853, the College continued barely to exist; but with the election of Dr. Washington Manly Wingate, in 1854, the outlook became more hopeful; by 1861 substantial progress had been made toward raising an endowment; the Faculty had been enlarged and the number of students had grown. All progress was stopped by the Civil War, but a brave beginning was made once more in 1865, and when Dr. Wingate died, in 1879, it could truly be said of him that the personality of the man and the gifts of the preacher had given Wake Forest College a place in the minds and the hearts of the Baptists of North Carolina.

The administration of Dr. Thomas H. Pritchard, 1879-1882, although brief, increased the enrollment from 117 to 169, and did much to popularize the cause of education in North Carolina.

From 1882 to 1884 the administrative duties of the College were discharged by the Chairman of the Faculty, Dr. William B. Royall, Professor of Greek.

In 1884 Dr. Charles E. Taylor, of the Chair of Latin, was made president; and his long administration, which ended with his resignation in 1905, is the most notable in the history of the College, and indeed adds a brilliant chapter to the history of education in the South. The endowment grew from \$40,000 to \$250,000; the enrollment increased from 161 to 328; five new buildings had been either erected or provided for; and the Faculty had grown from six professors and one tutor to seventeen professors and numerous assistants.

On the resignation of Dr. Taylor, in 1905, Dr. William Louis Poteat, of the Chair of Biology, was made President; and his administration is accordingly in its fifteenth year.

In 1865 the endowment fund of Wake Forest College was \$11,700.

In 1876, through the efforts of Dr. C. E. Taylor and Mr. James S. Purefoy, about \$20,000 was added to the endowment. By January 1, 1884, Dr. Taylor had increased the endowment to \$100,000 and had raised up a generous friend of the College in Mr. Jabez A. Bostwick of New York City.

In 1885 Mr. Bostwick created the Bostwick Loan Fund by a gift of \$12,000 and in 1886 made a further gift of \$50,000.

In 1891 Dr. Taylor raised, by subscription and still another gift of Mr. Bostwick, the sum of \$40,000.

From 1906 to 1910 Professor J. B. Carlyle undertook to raise \$150,000. Of this sum, \$117,798.56 was realized, of which the General Education Board of New York contributed a fourth.

The total endowment of the College, according to the report of the Treasurer, May, 1919, was \$534,564.81.

The grounds and buildings of the College are valued at \$259,115.

The College campus of twenty-four acres contains the following buildings:

The Administration Building, erected in 1838, and for forty years serving all purposes of the College; the Library

Building, erected in 1878 and largely the gift of Colonel J. M. Heck and Mr. John G. Williams of Raleigh; Wingate Memorial Hall, erected in 1879 by the Alumni and friends of the College, to commemorate the services of President W. M. Wingate; the Lea Laboratory, erected in 1888, mainly through the liberality of Mr. and Mrs. Sidney Lea, of Caswell County; the Gymnasium, erected by the Trustees in 1900; the Alumni Building, completed in 1906 and erected through funds secured by Professor J. B. Carlyle; the Hospital, completed in 1906; and the New Dormitory, opened in September, 1914.

M.A., Washington and Lee University, 1886; Litt.D., *ibid.*, 1906; Graduate Student, Teutonic Languages, Johns Hopkins University, 1886-1887; Headmaster of Languages, Charlotte Hall School, Md., 1887-1888; Professor of Modern Languages, Wake Forest College, 1888-1894; Traveling Fellow of the Albert Kahn Foundation, 1914-1915; Lecturer, Summer School, University of N. C., 1916; Professor of English, University of Virginia Summer School, 1917-1920; Professor of English, Wake Forest College, 1894.

JOHN F. LANNEAU, M.A., LL.D.,

Professor of Applied Mathematics and Astronomy.

Graduate South Carolina Military Academy, 1856; M.A., Baylor University, 1869; LL.D., Furman University, 1915; Professor of Mathematics and Astronomy, Furman University, 1866-1868; Professor of Mathematics, William Jewell College, 1868; Professor of Physics and Applied Mathematics, Wake Forest College, 1890; Professor of Applied Mathematics and Astronomy, *ibid.*, 1899.

NEEDHAM Y. GULLEY, M.A., LL.D., Dean of Law,

Professor of Law.

M.A., Wake Forest College, 1879; LL.D., *ibid.*, 1914; Member State Legislature, 1885; Member of N. C. Code Commission, 1903-1906; Professor of Law, Wake Forest College, 1894; Dean, *ibid.*, 1916-1919.

J. HENDREN GORRELL, M.A., Ph.D.,

Professor of Modern Languages.

M.A., Washington and Lee University, 1890; Assistant Professor, *ibid.*, 1890-1891; Ph.D., Johns Hopkins University, 1894; Professor Modern Languages, Wake Forest College, 1894.

*WILLIS R. CULLOM, M.A., Th.D., D.D.,

Professor of the Bible.

M.A., Wake Forest College, 1892; Assistant Professor, Southern Baptist Theological Seminary, 1893-1896; Th.D., *ibid.*, 1903; Professor of the Bible, Wake Forest College, 1896; D.D., Richmond College, 1915.

*Absent on leave.

JAMES L. LAKE, M.A.,*Professor of Physics.*

M.A., Richmond College, 1882; Graduate Student in Mathematics, Johns Hopkins University, 1890-1893; Professor of Natural Science, Bethel College, 1893-1896; Fellow in Physics, University of Chicago, 1896-1898; Professor of Mathematics and Physics, Ursinus College, 1898-1899; Professor of Physics, Wake Forest College, 1899.

EDGAR W. TIMBERLAKE, JR., B.A., LL.B., Dean,*Professor of Law.*

B.A., Wake Forest College, 1901; Professor of English and Greek, Oak Ridge Institute, 1901-1903; LL.B., University of Virginia, 1905; Associate Professor of Law, Wake Forest College, 1906; Professor of Law, Wake Forest College, 1909; Dean *ibid.*, 1919.

GEORGE W. PASCHAL, B.A., Ph.D.,*Professor of Latin and Greek.*

B.A., Wake Forest College, 1892; Graduate Student, University of Chicago, 1893-1896; Fellow in Greek, *ibid.*, 1899-1900; Ph.D., *ibid.*, 1900; Associate Professor of Latin and Greek, Wake Forest College, 1906-1911; Professor of Latin and Greek, *ibid.*, 1911.

HUBERT MCNEILL POTEAT, M.A., Ph.D.,*Professor of Latin Language and Literature.*

B.A., Wake Forest College, 1906; M.A., *ibid.*, 1908; Instructor in Latin, *ibid.*, 1905-1908; Drisler Fellow in Classical Philology, Columbia University, 1908-1910; Master in Latin, The Hotchkiss School, 1910-1912; Ph.D., Columbia University, 1912; Professor of Latin, Wake Forest College, 1912.

HUBERT A. JONES, M.A., LL.B.,*Professor of Mathematics.*

B.A., Wake Forest College, 1908; M.A., *ibid.*, LL.B., *ibid.*, 1909; Graduate Student, University of Chicago, 1910-1911; Graduate Student, Columbia University, 1913; Instructor in Mathematics, Wake Forest College, 1908-1911; Associate Professor of Mathematics, *ibid.*, 1911; Professor of Mathematics, 1915; Graduate Student, Columbia University, 1916.

JOHN W. NOWELL, M.A., Ph.D.,*Professor of Chemistry.*

B.A., Wake Forest College, 1903; M.A., *ibid.*, 1907; Instructor in Chemistry, Wake Forest College, 1909-1910; Ph.D., Johns Hopkins University, 1912; Instructor in Chemistry, N. C. College of Agriculture and Mechanic Arts, 1912-1914; Associate Professor of Chemistry, Wake Forest College, 1914; Professor of Chemistry, 1915.

C. CHILTON PEARSON, M.A., Ph.D.,*Professor of Political Science.*

M.A., Richmond College, 1904; Head of Department of History, Richmond High School, Graduate Student, Columbia University, 1908-1909; Farnam Fellow in History, Yale University, 1910-1911; Instructor in History, *ibid.*, 1911-1912; Ph.D., *ibid.*, 1913; Acting Professor of History, Washington and Lee University, 1913-1914; Associate Professor of Political Science, Wake Forest College, 1916; Professor of Political Science, *ibid.*, 1917.

ROBERT BRUCE WHITE, M.A.,

Professor of Law.

M.A., Wake Forest College, 1891; Graduate Student in Law, *ibid.*, 1895-1897; Superintendent Public Instruction, Franklin County, 1899-1914; State Senator, 1903 and 1915; Professor of Law, Wake Forest College, 1916.

THOMAS EVERETTE COCHRAN, B.Sc., M.A., Th.M.,

Professor of Education and Philosophy.

B.Sc., Bardstown College, Ky., 1905; Principal Bardstown Junction, Ky., High School, 1905-07; Dean and Professor of Education and Philosophy, East Lynn College, Ky., 1907-09; B.A., Richmond College, Va., 1911; Professor of Mathematics and Sociology, Columbia College, Fla., 1911-13; Graduate Student, University of Chicago, 1913-15; M.A., *ibid.*, 1914; B.D., *ibid.*, 1915; Fellow, Crozer Seminary, 1915-16; Th.M., *ibid.*, 1916; Graduate Student, University of Pennsylvania, 1915-16; Professor of Education and Sociology, Columbia College, Fla., 1916-17; Professor of Education and Philosophy, Wake Forest College, 1917.

THURMAN D. KITCHIN, B.A., M.D., Dean of Medicine,

Professor of Physiology and Pharmacology.

B.A., Wake Forest College, 1905; M.D., Jefferson Medical College, 1908; Professor of Physiology and Pharmacology, Wake Forest College, 1917.

LUTHER T. BUCHANAN, JR., B.S., M.D.,

Professor of Pathology, Bacteriology, and Histology.

B.S., Wake Forest College, 1911; M.D., Jefferson Medical College, Philadelphia, 1913; Interne, Kansas City General Hospital, 1913-1914; Medical Reserve Corps, U. S. Army, 1916-1917; Professor of Pathology, Bacteriology, and Histology, Wake Forest College, 1917.

FRANK K. POOL, B.A., Th.M.,

Acting Professor of the Bible.

B.A., Wake Forest College, 1913; Assistant Principal Fruitland Institute, 1913-1915; Th.M., Southern Baptist Theological Seminary, 1918.

HERBERT M. VANN, B.S., M.A., M.D.,

Professor of Anatomy.

B.S., Wake Forest College, 1915; M.A., Wake Forest College, 1916; M.D., Jefferson Medical College, Philadelphia, 1917; Interne, The Methodist Episcopal Hospital, Brooklyn, N. Y., 1917-1918; Medical Reserve Corps, U. S. Army, 1918-1919; Professor of Anatomy, Wake Forest College, 1919.

WALTER F. TAYLOR, B.S., M.A.,

Associate Professor of Bacteriology and Physiological Chemistry.

B.S., Wake Forest College, 1916; M.A., *ibid.*, 1917; Instructor in Biology, Wake Forest College, 1916-1917; Bacteriologist and Serologist, U. S. Army, 1917-1918 (Lieutenant Sanitary Corps); Student Yale Army Laboratory School, 1918; Instructor in Physiological Chemistry and Toxicology, Wake Forest College, Spring 1919; Associate Professor of Bacteriology and Physiological Chemistry, Wake Forest College, 1919-1920.

CHARLES A. ROUSE,

Associate Professor of English.

Ph.B., University of Chicago, 1910; Professor of English, Simmons College, Abilene, Texas, 1910-1915; A.M., University of Chicago, 1913; Graduate Student, *ibid.*, 1915-1917; Substitute-Instructor in English, University of Colorado, 1917-1918; Instructor in English, University of Illinois, 1918-1919; Associate Professor of English, Wake Forest College, 1919.

ELLIOTT B. EARNSHAW, M.A.,

Bursar and Secretary, Superintendent of College Hospital.

B.A., Wake Forest College, 1906; M.A., *ibid.*, 1908; Instructor in Mathematics and Acting Bursar, Wake Forest College, 1906-1907; Bursar and Secretary, *ibid.*, 1907; Superintendent of College Hospital, *ibid.*, 1911.

MRS. ETHEL T. CRITTENDEN,

Librarian.

HENRY L. LANGSTON,

Director of Physical Education.

ARTHUR P. SLEDD, B.S., M.A.,

Assistant Professor of Chemistry.

CHARLES S. BLACK, B. A.,

Instructor in Chemistry.

H. T. SHANKS, B.A.

Instructor in Mathematics.

R. P. BURNS, B.A.,

Instructor in Political Science.

I. K. STAFFORD,

Instructor in Mathematics.

PERCY H. WILSON,

Instructor in French.

Assistants: S. B. WILSON (Biology); R. W. SULLIVAN (Chemistry); G. N. THOMAS (Education); T. E. WALTERS (English); R. C. BROWN (English); E. F. POPE (Physical Culture); A. H. PERRY (Physics); W. M. LOVELACE (Law); H. W. LEE (Physiology); R. T. LILES (Pathology and Bacteriology); W. H. WOODY (Anatomy); R. D. POE (Library); J. R. SHERRILL (Library); T. T. HAMILTON (Library); R. S. AVERITT (Library); W. O. KELLEY (Library); R. K. CHARLES (Library); O. T. GLENN (Library).

Officers

WILLIAM L. POTEAT, *President.*

EDGAR W. TIMBERLAKE, JR., *Dean.*

ELLIOTT B. EARNSHAW, *Bursar and Secretary, and Superintendent of College Hospital.*

GEORGE W. PASCHAL, *Examiner.*

CLARENCE D. GRAVES, *Chaplain.*

MRS. ETHEL T. CRITTENDEN, *Librarian.*

MISS FLORIDA NEWMAN, *Head Nurse of College Hospital.*

WALTER D. HOLLIDAY, *Superintendent of Buildings and Grounds.*

Committees

Appointments—

Dean, Professors of Mathematics, Latin, English, Education.

Athletics—

Professors PASCHAL and POTEAT, and Director LANGSTON.

Budget—

Bursar EARNSHAW and Professors GORRELL and LANNEAU.

Buildings and Grounds—

Professors GORRELL, LAKE, NOWELL, BUCHANAN, Bursar EARNSHAW, and Superintendent HOLLIDAY.

Degrees—

President, Dean, Examiner, Chairman of Publication Committee, and Bursar.

Examinations—

Professors JONES, GULLEY, and COCHRAN.

Executive—

President, Dean, Professors GORRELL and WHITE.

Graduate Studies—

Professors PEARSON, NOWELL, SLEDD, and Examiner.

Lectures—

Professors POTEAT, SLEDD, VANN and POOL.

Library—

Professors PEARSON, PASCHAL, LAKE, and KITCHIN.

Publications—

Professors SLEDD, TIMBERLAKE, POOL, and Bursar EARNSHAW.

Catalogue of Students

GRADUATE

<i>Name.</i>	<i>Residence.</i>	<i>Session.</i>
Black, Charles Spurgeon, B. A. (Wake Forest)	<i>Stanly</i>	4
Blackstock, Clarence Ernest, B.A. (U. of N. C.)	<i>Buncombe</i>	1
Britt, Luther J., B.A. (Wake Forest)	<i>Robeson</i>	5
Burden, Henry Vernon, B.A. (Wake Forest)	<i>Bertie</i>	5
Burns, Robert Paschal, B.A. (Wake Forest)	<i>Person</i>	5
Dawes, Lellon Barnes, B.A. (Wake Forest)	<i>Wilson</i>	5
Eagle, James Carr, B.A. (Wake Forest)	<i>Rowan</i>	5
Floyd, John Hamilton, B.A. (Wake Forest)	<i>Cleveland</i>	4
Franklin, Andrew J., Jr., B.A. (Wake Forest)	<i>Swain</i>	4
McCurry, Charles Myron, B.A. (Wake Forest)	<i>Florence, S. C.</i>	5
Milton, Carl Yeomans, B.A. (Wake Forest)	<i>Stanly</i>	5
Olive, Hubert Ethridge, B.A. (Wake Forest)	<i>Johnston</i>	4
Pool, Frank Kenneth, B.A. (Wake Forest)	<i>Wake</i>	5
Ragland, Carl Howell, B.A. (Wake Forest)	<i>Granville</i>	5
Rudisill, Justus Coyte, B.A. (Lenoir College)	<i>Catawba</i>	1
Shanks, Henry Thomas, B.A. (Wake Forest)	<i>Vance</i>	5
Sowers, Roy Gerodd, B.A., M.A. (Wake Forest)	<i>Davidson</i>	5
Spurling, Lee Spurgeon, B.A. (Wake Forest)	<i>Cleveland</i>	5
Tolar, Marion B., B.A. (Wake Forest)	<i>Brunson, S. C.</i>	5
Ward, Benjamin Thomas, B.A. (Wake Forest)	<i>Perquimans</i>	5
Washburn, George Fred, B.A. (Wake Forest)	<i>Mitchell</i>	5
Woltz, Claude Bernard, B.A. (Univ. of N. C.)	<i>Surry</i>	1

UNDERGRADUATE

Seniors—Class of 1920

<i>Name.</i>	<i>Residence.</i>	<i>Session.</i>
Arledge, Roone	<i>Columbus</i>	4
Banks, Exum Duval	<i>Wake</i>	4
Blackmon, John Morris	<i>Lancaster, S. C.</i>	4
Blanchard, Charles Wingate	<i>Craven</i>	4
Brewer, Henry Clay	<i>Lenoir</i>	4
Bryan, John William, Jr.	<i>Pitt</i>	4
Bunn, Bonnie David	<i>Franklin</i>	4
Camp, William Gaston	<i>Wake</i>	4

<i>Name.</i>	<i>Residence.</i>	<i>Session.</i>
Carswell, Macky Kenion.....	<i>Burke</i>	4
Chaplin, Alfred L.....	<i>Tyrrell</i>	4
Clark, Levi Spurgeon.....	<i>Buncombe</i>	4
Clonts, Forrest William.....	<i>Polk, Fla.</i>	3
Cullom, Edward Farmer.....	<i>Wake</i>	5
Dawkins, Lester James.....	<i>Anson</i>	4
Earp, Guthrie Jack.....	<i>Wake</i>	4
Feezor, Forrest Chalmer.....	<i>Davidson</i>	4
Fouts, Dover Reece.....	<i>Macon</i>	4
Glenn, Onslow Talmage.....	<i>Person</i>	4
Glosson, Spurgeon Cade.....	<i>Chatham</i>	4
Greaves, Carl Paschal.....	<i>Warren, Ky.</i>	3
Green, Jesse Smith.....	<i>Davidson</i>	4
Gresham, Newton Ernest.....	<i>Duplin</i>	4
Griffin, Raleigh Hiram.....	<i>Northampton</i>	4
Hamrick, Charles Raymond.....	<i>Rutherford</i>	4
Helms, Henry Arthur.....	<i>Union</i>	3
Langston, Henry L.....	<i>Greenville, S. C.</i>	3
LeRoy, John Henry, Jr.....	<i>Pasquotank</i>	4
Lovelace, William Monroe.....	<i>Cleveland</i>	4
Marshall, Roger Powell.....	<i>Wake</i>	3
Mitchell, Elton Morgan.....	<i>Franklin</i>	4
Morris, B. Ellis.....	<i>Wake</i>	4
Pittman, William Gladstone.....	<i>Nansemond, Va.</i>	4

Matriculation

Candidates for admission must be at least fifteen years of age and be able to furnish satisfactory testimonials of good moral character. If coming from other incorporated institutions, they must be able to present certificates of honorable dismissal.

In matriculating the following order must be observed:

1. Consultation with the Examiner.
2. Payment of fees in the Bursar's office the first day of the term.

No student is allowed to enter any class until he has completed his matriculation in the order specified.

Requirements for Admission

Applicants for admission to courses in the College, leading to a degree, must have, in addition to the pre-academic or grammar school studies, four years of high school preparation, or a full equivalent, including all subjects specifically required for entrance in the several courses.

Credit for preparatory work is allowed upon presentation of Certificates of Admission from accredited academies and high schools. These certificates must be duly made out and signed by the proper officials of the schools from which the applicants come, and should show in detail, (1) the textbook used in each subject, (2) the amount completed, (3) the number of weeks spent thereon, (4) the length in minutes of the recitation period, and (5) the mark or grade secured. *Blanks for this purpose will be found inside the front cover of this catalogue.* When the applicant has received his preparation at two or more schools, he must present a certificate from each school. He must see to it that his certificate is full and correct before he presents it, for credits will be allowed only for properly certified work.

Examinations, the scope of which is indicated below, will be required at entrance of all applicants who do not present certificates.

Entrance requirements are designated in terms of units. A unit represents a high school course extending throughout the school year of not less than thirty-two weeks, with five recitation periods weekly of not less than three-quarters of an hour each.

A minimum of fifteen units is required for admission to the College. Twelve and a half of these units are prescribed, as follows:

English, 3 units;

Mathematics, 3 units;

Languages other than English, 4 units;

History, 2 units;

Science, 1 unit;

Elective, 2 units, to be made up from any of the subjects accepted for admission.

Conditions

Students are urged to complete their preparation before coming to the College. An applicant with a minimum of 13 units may be admitted to the Freshman Class on condition that he take work to remove his deficiencies before the beginning of his Sophomore year. For this purpose he may use the courses designated by letters in French, German, Greek, and Latin.

For the B.A. degree, except in Group 5, the four units of Language other than English may be Latin; for the B.A. degree, Group 5, two of the units must be Latin and two Modern Languages.

For the B.A. degree in Medicine, five units of entrance work in Language are required, three units in Latin, one unit in French, one unit in German.

English

Preparation in English should keep two ends in view: (1) The ability to speak and to write the language readily and correctly; (2) The ability to read with intelligence and appreciation.

1. *Grammar and Rhetoric.* One unit.

This course is required for admission into any college class. The candidate must, first of all, be able to spell, capitalize, and punctuate correctly. He must further show a practical knowledge of English grammar, including inflection, syntax, and sentence structure; and familiarity with the elementary principles of rhetoric, including paragraph structure, narration, and description.

No candidate will be accepted in English whose work is seriously defective in point of spelling, punctuation, grammar, or division into paragraphs.

2. *Reading.* Two units.

In connection with the reading and the study of the required classics, the student should be made familiar with the history of English Literature from the time of Chaucer and with the general history of the English people.

Long's History of English Literature and Montgomery's History of England are especially recommended for this purpose.

The candidate will be required to present evidence of a general knowledge of the subject matter of the books read and studied, and to answer simple questions on the lives of the authors. He should also show some knowledge of the principles underlying the structure of verse and of the play, the essay, and the novel. The form of examination will usually be the writing of a paragraph or two on each of several topics, to be chosen by the candidate from a considerable number—perhaps ten or fifteen—set before him in the examination paper. The treatment of these topics is designed to test the candidate's power of clear and accurate expression.

For 1920-1921

*REQUIRED FOR STUDY

GROUP I—*Drama*. (One to be selected.)

Shakespeare's *Julius Cæsar*, *Macbeth*, or *The Merchant of Venice*.

GROUP II—*Poetry*. (One to be selected.)

Milton's *L'Allegro*, *Il Penseroso*, and either *Comus* or *Lycidas*; Tennyson's *The Coming of Arthur*, *The Holy Grail*, and *The Passing of Arthur*; Palgrave's *Golden Treasury* (First Series), Book IV.

GROUP III—*Oratory*. (One to be selected.)

Burke's *Conciliation with America*; Washington's *Farewell Address*, and Webster's *First Bunker Hill Oration*; Macaulay's *Two Speeches on Copyright*, and Lincoln's *Speech at Cooper Union*.

GROUP IV—*Essays*. (One to be selected.)

Carlyle's *Essay on Burns*, with a selection from *Burns' Poems*; Macaulay's *Life of Johnson*; Emerson's *Essay on Manners*.

REQUIRED FOR READING.

Ten books are required, subject to the limits of choice specified in the various groups.

GROUP I. (Two to be selected.)

Selections from the Old Testament; *The Odyssey*, omitting, if desired, Books I-V, XV-XVII; *The Iliad*, omitting, if desired, Books, XI, XIII, XIV, XV, XVII, XXI; Vergil's *Æneid*.

For any selection from this group a selection from any other group may be substituted.

GROUP II. (Two to be selected.)

†Shakespeare's *Merchant of Venice*; Shakespeare's *Midsummer-Night's Dream*; Shakespeare's *As You Like It*; Shakespeare's *Twelfth Night*; Shakespeare's *Henry V*; †Shakespeare's *Julius Cæsar*; Shakespeare's *King John*; Shakespeare's *Richard II*; Shakespeare's *Richard III*; Shakespeare's *Coriolanus*; †Shakespeare's *Macbeth*.

*Works in italics are preferred.

†If not chosen for study.

GROUP III. (Two to be selected.)

George Eliot's *Silas Marner*; Goldsmith's *Vicar of Wakefield*; either Scott's *Ivanhoe* or Scott's *Quentin Durward*; Dickens' *Tale of Two Cities*; Stevenson's *Treasure Island*; Swift's *Gulliver's Travels*; Cooper's *Last of the Mohicans*; Defoe's *Robinson Crusoe*. Part I; Hawthorne's *House of the Seven Gables*, *Twice Told Tales*, or *Mosses from an Old Manse*; Thackeray's *Novels*, any one; Mrs. Gaskell's *Cranford*; Malory's *Morte d'Arthur*; Bunyan's *Pilgrim's Progress*, Part I; Frances Burney's *Evelina*; Jane Austen's *Novels*, any one; Miss Mitford's *Our Village*; Kingsley's *Westward Ho!* or *Hereward the Wake*; Reade's *The Cloister and the Hearth*; Blackmore's *Lorna Doone*; Hughes's *Tom Brown's School Days*; Poe's *Selected Tales*; A Collection of *Short Stories* by various writers.

GROUP IV. (Two to be selected.)

Sir Roger de Coverley Papers or *Selections from The Tatler and The Spectator*; Franklin's *Autobiography*; Irving's *Sketch Book*, or *Life of Goldsmith*; Macaulay's *Essay on Lord Clive*, *Warren Hastings*, *Milton*, *Addison*, or *Goldsmith*; Thackeray's *English Humorists*; *Selections from Lincoln's Addresses and Letters*; Lamb, *selections from the Essays of Elia*; Ruskin's *Sesame and Lilies*; Parkman's *Oregon Trail*; Thoreau's *Walden*; Huxley's *Autobiography* and *extracts from Lay Sermons*; Stevenson's *Inland Voyage and Travels with a Donkey*; Boswell's *Life of Johnson*; Southey's *Life of Nelson*; Lockhart's *Life of Scott*; Trevelyan's *Life of Macaulay*; Dana's *Two Years Before the Mast*; Lowell's *Selected Essays*; Holmes's *The Autocrat of the Breakfast Table*; *Essays by Bacon, Lamb, De Quincey, Emerson, etc.*; *Letters by various writers.*

GROUP V. (Two to be selected.)

Goldsmith's *Deserted Village* and *The Traveler*; Coleridge's *Ancient Mariner*, *Christabel*, and *Kubla Khan*; Scott's *Lady of the Lake*; Macaulay's *Lays of Ancient Rome*, *The Battle of Naseby*, *The Armada*, *Ivry*; Tennyson's *The Princess*, or *Gareth and Lynette*, *Lancelot and Elaine*, and *The Passing of Arthur*; Browning's *Select Poems*; Arnold's *Sohrab and Rustum* and *The Forsaken Merman*; Byron's *Childe Harold*, *Canto III or IV*, and *Prisoner of Chillon*; Palgrave's *Golden Treasury (First Series)*,

Books II and III; Pope's *The Rape of the Lock*; English and Scottish Ballads; Selections from American Poetry; Palgrave's *Golden Treasury* (First Series), Book IV (if not chosen for study).

Latin

I. Amount and Range of Preparatory Work Required

1. The Latin reading required of candidates for admission to college, without regard to the prescription of particular authors and works, shall be not less in *amount* than Cæsar, *Gallie War*, I-IV; Cicero, the orations against Catiline, for the Manilian Law, and for Archias; Vergil, *Æneid*, I-VI.

2. The amount of reading specified above shall be selected by the schools from the following authors and works: Cæsar, *Gallie War* and *Civil War*; Nepos, *Lives*; Cicero, *Orations*, *Letters*, *De Amicitia* and *De Senectute*; Sallust, *Catiline* and *Jugurthine War*; Vergil, *Bucolics*, *Georgics*, and *Æneid*; Ovid, *Metamorphoses*, *Fasti*, and *Tristia*.

The following credits are given:

(a) GRAMMAR AND COMPOSITION.—Mastery of forms, vocabularies, principal parts of verbs, idioms and rules of syntax found in such beginners' books as Place's, D'Ooge's, Inglis and Prettyman's, and Bennett's; also ability to write simple Latin prose based on the vocabularies and rules of syntax given in these books. 1 unit.

(b) CÆSAR.—*Gallie War*. One complete year, 5 recitations a week, covering three to five books of the text, with composition and grammar. 1 unit.

(c) CICERO.—*Orations* for the Manilian Law and for Archias and three or four other orations. Twenty-five pages of the *Letters* may be substituted for one oration. Composition and grammar. 1 year, 5 recitations a week. 1 unit.

(d) SALLUST.—*Catiline* and *Jugurthine War*, with composition and grammar. $\frac{1}{2}$ year, 5 recitations a week. $\frac{1}{2}$ unit.

(e) NEPOS.—*Lives*, with composition and grammar. $\frac{1}{2}$ year, 5 recitations a week. $\frac{1}{2}$ unit.

(f) VERGIL.—*Æneid*, five or six books, with prosody, composition, and grammar. The *Bucolics* and the *Georgics* in whole or in

part may be substituted for an equivalent amount of the *Æneid*. 1 complete year, 5 recitations a week. 1 unit.

(g) OVID.—Selections from the *Metamorphoses*, *Fasti*, and *Tristia*, with prosody, composition, and grammar. $\frac{1}{2}$ year, 5 recitations a week. $\frac{1}{2}$ unit.

(h) CICERO.—*De Senectute*, with composition and grammar. $\frac{1}{2}$ year, 5 recitations a week. $\frac{1}{2}$ unit.

II. Subjects and Scope of the Examinations

1. *Translation at Sight*. Candidates who do not present satisfactory certificates will be examined in translation at sight of both prose and verse. The vocabulary, construction, and range of ideas of the passages set will be suited to the preparation secured by the reading indicated above.

2. *Prescribed Reading*. Candidates will be examined also upon the following prescribed reading: Cicero, Oration for the Manilian Law and Oration for Archias; Vergil, *Æneid*, I, II, and either IV or VI at the option of the candidate, with questions on subject matter, literary and historical allusions, and prosody. Every paper in which passages from the prescribed reading are set for translation will contain also one or more passages for translation at sight; and candidates must deal satisfactorily with both these parts of the paper, or they will not be given credit for either part.

3. *Grammar and Composition*. The examinations in grammar and composition will demand thorough knowledge of all regular inflections, all common irregular forms, and the ordinary syntax and vocabulary of the prose authors read in school, with ability to use this knowledge in writing simple Latin prose. The words, constructions, and range of ideas called for in the examinations in composition will be such as are common in the reading of the year, or years, covered by the particular examination.

Suggestions Concerning Preparation

Exercises in translation at sight should begin in school with the first lessons in which Latin sentences of any length occur and should continue throughout the course with sufficient frequency

to insure correct methods of work on the part of the student. From the outset particular attention should be given to developing the ability to take in the meaning of each word—and so, gradually, of the whole sentence—just as it stands; the sentence should be read and understood in the order of the original, with full appreciation of the force of each word as it comes, so far as this can be known or inferred from that which has preceded and from the form and position of the word itself. The habit of reading in this way should be encouraged and cultivated as the best preparation for all the translating that the student has to do. No translation, however, should be a mechanical metaphor. Nor should it be a mere loose paraphrase. The full meaning of the passage to be translated, gathered in the way described above, should, finally, be expressed in clear and natural English.

A written examination cannot test the ear or tongue, but proper instruction in any language will necessarily include the training of both. The school work in Latin, therefore, should include much reading aloud, writing from dictation, and translation from the teacher's reading. Learning suitable passages by heart is also very useful, and should be more frequently practised.

The work in composition should give the student a better understanding of the Latin he is reading at the time, if it is prose, and greater facility in translation. It is desirable, however, that there should be systematic and regular work in composition during the time in which poetry is read, as well; for this work the prose authors already studied should be used as models.

Greek

1. Xenophon's *Anabasis*, Book I, chaps. i-viii. The candidate will be expected to show a thorough mastery of forms, construction and idioms such as are found in the prescribed portion of Xenophon, and to be able to write at sight simple Attic prose. 1 unit. Required for entrance to Greek I.

2. *Anabasis*, Books II-IV, or Books II-III of the *Anabasis* and one book of Herodotus. The candidate will be expected to be able to write prose based on the vocabulary and constructions of the *Anabasis*. 1 unit.

Mathematics1. *Algebra.* 2 units.

Knowledge of Elementary Algebra and of College Algebra (each studied one year) as far as logarithms, including factoring, common divisors, fractions, involution and evolution, theory of exponents, radicals, quadratics, progressions, and the binomial theorem.

2. *Geometry.* 1 unit.

Five Books of Plane Geometry.

Modern Languages*German.* 1 or 2 units.

(1) Thorough drill in pronunciation; (2) a practical knowledge of inflections and elementary principles of syntax; (3) the reading of not less than 150 pages of easy German prose and verse. 1 unit.

Second Year. (1) Reading of from 300 to 400 pages of literature in form of stories and plays; (2) grammar and composition continued. 1 unit.

French. 1 or 2 units.

(1) Thorough drill in pronunciation; (2) a practical knowledge of inflections and the elementary principles of syntax; (3) the reading of not less than 150 pages of easy French prose. 1 unit.

Second Year. (1) Reading of from 400 to 500 pages of French literature, including readings from Molière, Corneille, and Racine; (2) grammar and composition continued. 1 unit.

Spanish. 1 or 2 units.

(1) Thorough drill in pronunciation; (2) a practical knowledge of inflections and elementary principles of syntax; (3) the reading of not less than 150 pages of easy Spanish prose. 1 unit.

Second Year. (1) Reading of from 200 to 250 pages of Spanish literature; (2) grammar and composition continued. 1 unit.

Political Science

General History. 1 unit.

Thorough drill in the great events of the historic nations of the world. For Ancient History: Goodspeed's "History of the Ancient World" or West's "Ancient History" or Myers' "Ancient History." For Mediæval and Modern History: Myers' "Mediæval and Modern History." However, any good text-book on General History, of not less than 500 pages, will be accepted.

English History. $\frac{1}{2}$ unit.

The student should be familiar with the leading events in English History, such as may be found in Cheney's "A Short History of England."

United States History. $\frac{1}{2}$ unit.

The student should be familiar with the history of the United States as told in a text-book of not less than 300 pages.

Science

Physical Geography. $\frac{1}{2}$ unit.

The entrance requirements in this subject include such elementary knowledge as may be obtained from a text-book like Tarr and McMurry's "New Physical Geography."

Physiology. $\frac{1}{2}$ unit.

Preparation in human physiology should embrace the knowledge of the gross structure of the chief organs of the body and their functions in health, together with the general principles of personal and public hygiene. Such a book as Martin's "Human Body," Elementary Course, might be used in this course. No credit can be given for work in elementary physiology done in the grammar school grades.

Zoölogy. $\frac{1}{2}$ unit.

The entrance requirements in this subject will be met by such a knowledge of animal structure and animal activities as may be obtained by the study of a manual like Jordan and Kellogg's "Animal Forms." The actual observation and study of specimens should be insisted upon.

Botany. $\frac{1}{2}$ unit.

To meet the requirements in botany the student should know the general structure and functions of the great groups of plants, specimens of which he should study in a laboratory course. A serviceable text-book for this preparation is Bergen's "Elements of Botany."

Physics. $\frac{1}{2}$ unit.

Entrance requirements in Physics will be met by the knowledge that may be acquired of the subject from the study of Hoadley's "Brief Course in Physics" or some book of similar grade.

Admission to Advanced Standing

Students bringing proper certificates of work done in other colleges of good standing will be given advanced credit for such work without examination, on the approval of the professor in whose department the advanced credit is sought, but at least one year's residence at the College will be required of every candidate for a baccalaureate degree. To students coming from secondary schools credit for advanced standing will be given only after examination, or the satisfactory completion of other work in the department in which credit is sought.

Credit for work done in high school will not be allowed on English 1, History 1, German 1, French 1, or Mathematics 1. These courses must be taken in college. But credit for high school work in excess of the entrance requirements may be granted by the professors concerned.

Schools

Instruction is given in the following Schools:

- I. LATIN LANGUAGE AND LITERATURE.
- II. GREEK LANGUAGE AND LITERATURE.
- III. ENGLISH LANGUAGE AND LITERATURE.
- IV. MODERN LANGUAGES.
 1. French Language and Literature.
 2. German Language and Literature.
 3. Spanish Language and Literature.
- V. MATHEMATICS.
 1. Solid Geometry and Trigonometry.
 2. Analytic Geometry.
 3. Differential and Integral Calculus.
- VI. APPLIED MATHEMATICS AND ASTRONOMY.
- VII. CHEMISTRY.
 1. General Chemistry.
 - (a) Inorganic Chemistry.
 - (b) Organic Chemistry.
 2. Applied Chemistry.
- VIII. BIOLOGY.
 1. General Biology.
 2. Botany.
 3. Zoölogy.
 4. Elementary Physiology.
 5. Geology.
- IX. PHYSICS.
- X. POLITICAL SCIENCE.
 1. History.
 2. Political Economy.
 3. Constitutional Government.
 4. Sociology.
- XI. THE BIBLE.

XII. EDUCATION.

XIII. PHILOSOPHY.

XIV. LAW.

XV. MEDICINE.

1. Anatomy.
2. Physiology and Bio-chemistry.
3. Pathology and Bacteriology.

XVI. PHYSICAL EDUCATION.

I. SCHOOL OF LATIN LANGUAGE AND LITERATURE.

Professor H. McN. Poteat.

Professor Paschal.

COURSE A.—Five hours weekly.

VERGIL.—Æneid (Knapp). Grammar and Composition. May be counted towards credits for a degree only when taken in college by students who have offered four units of foreign languages on entrance requirements.

COURSE 1.—Five hours weekly. Prescribed for the B.A. degree. Admission to this class is by examination or certificate, but no student will be allowed to remain in the class, if it becomes evident that he is not prepared for the work.

COMPOSITION AND GRAMMAR.—Mierow's Latin Syntax; Gildersleeve-Lodge, Latin Composition, Part I; Allen and Greenough's Grammar; original exercises.

LIVY.—Selections (Burton). Fall Term.

CICERO.—Letters (Poteat); lectures on Cicero and his times. First ten weeks of the Spring Term.

HOBACE.—Odes and Epodes (Moore). Second ten weeks of the Spring Term.

COURSE 2.—Three hours weekly.

COMPOSITION AND GRAMMAR.—Gildersleeve-Lodge, Latin Composition, Part II; Allen and Greenough's Grammar.

TACITUS.—*Germania and Agricola* (Stuart). Fall Term.

HORACE.—*Satires and Epistles* (Morris). First ten weeks of the Spring Term.

MARTIAL.—*Epigrams* (Post). Second ten weeks of the Spring Term.

Lectures and papers on Roman Life.

COURSE 3.—Two hours weekly.

Lectures on Roman Literature, with collateral reading.

Roman Literature of the Republic. Fall Term.

Roman Literature of the Empire. Spring Term.

COURSE 4.—See Education and Philosophy 19.

COURSE 5.—Two hours weekly.

Roman Comedy and Satire.

Selected plays of Plautus and Terence; Roman Wit and Humor. Fall Term.

Readings from Juvenal and Petronius; the origin and development of Satire. Spring Term.

II. SCHOOL OF GREEK LANGUAGE AND LITERATURE.

Professor Royall.

Professor Paschal.

COURSE A.—Elementary Greek. Five hours weekly. Greek Grammar and one book of Xenophon's *Anabasis*. May be counted towards credit for a degree only when taken in college by students who have offered four units of Language on entrance requirements.

COURSE 1.—Five hours weekly. Elective.

XENOPHON.—Books 2, 3, and 4 of the *Anabasis*; exercises based upon the text recently read, and arranged with a view to thorough drill in Syntax, partly without a manual and partly in the use of Bonner's or Gleason's Greek Prose Composition, references being principally in Goodwin's Greek Grammar and Liddell and Scott's Greek-English Lexicon (Intermediate).

HERODOTUS.—Selections from representative stories and from the history of the Persian invasions of Greece under Darius and Xerxes.

Botsford's History of Greece.

COURSE 2.—Three hours weekly. Elective.

PLATO.—Apology and Crito, with exercises in Greek Prose, designed to give a review of Greek Grammar and to illustrate Platonic idiom.

HOMER.—Two books of the Iliad and two of the Odyssey; outline study of each poem as a whole, with use of the abridged version of the Iliad by Lang, Leaf, and Myers, and of the Odyssey by Butcher and Lang.

LITERATURE.—Jebb's Primer of Greek Literature; Capps's "From Homer to Theocritus"; informal lectures.

COURSE 3.—Two hours weekly. Elective.

DRAMA.—One drama of Sophocles, one drama of Æschylus, one drama of Euripides, and one drama Aristophanes; lectures on the Drama; Rhythmic and Metric.

ATTIC ORATORS.—Demosthenes, Lysias, and Isocrates.

COURSE 4.—Three hours weekly. Elective.

One of the following courses:

HOMER.—Reading and critical study of the entire Iliad or Odyssey.

PLATO.—The Republic—the whole work being carefully read. Ten plays from Æschylus, Sophocles, and Euripides.

COURSE 5.—THE GREEK NEW TESTAMENT.—Three hours weekly. Elective. (The object of this course is to enable students of classic Greek to acquire a knowledge of the New Testament idiom.)

TEXT-BOOKS.—Wescott and Hort's New Testament in Greek; Robertson's Grammar of the Greek New Testament; Thayer's Lexicon.

III. SCHOOL OF MODERN LANGUAGES.

*Professor Gorrell.**Instructor Wilson.*

The subjects taught in this School are the German, French, and Spanish languages and literatures. Courses A and B in German, French, and Spanish may be counted on the elective credits for a degree only when taken in college by students who have offered four units of foreign language on entrance requirements.

German

GERMAN A.—Five hours a week in the Fall term.

GRAMMAR AND COMPOSITION.—Bacon's German Grammar. Oral and written exercises.

GERMAN B.—Five hours a week in the Spring term.

READING.—Hewett's German Reader, Schiller's Wilhelm Tell, Goethe's Hermann und Dorothea, Lessing's Minna von Barnhelm.

GERMAN 1.—Five hours a week in the Fall term.

COMPOSITION.—Harris' German Composition.

CLASSICAL LITERATURE.—Lectures on German Literature, followed by extensive readings from the works of Goethe.

GERMAN 2.—Five hours a week in the Spring term.

ADVANCED COMPOSITION.—A study of the works of Schiller, Lessing, Heine, and modern authors.

French

FRENCH A.—Five hours a week in the Fall term.

GRAMMAR AND COMPOSITION.—Fraser & Squair's French Grammar. Blackboard drill and written exercises.

FRENCH B.—Five hours a week in the Spring term.

GRAMMAR.—Fraser & Squair's French Grammar completed.

READING.—Halévy's L'Abbé Constantin, Dumas' La Tulipe Noire and other stories.

FRENCH 1.—Five hours a week in the Fall Term.

COMPOSITION.—Grandgent's French Composition.

LITERATURE.—Lectures on French Literature and readings in the seventeenth century literature.

FRENCH 2.—Five hours a week in the Spring Term.

COMPOSITION.—Grandgent's French Composition.

LITERATURE.—A study of the principal authors of the eighteenth and nineteenth centuries.

Spanish

SPANISH A.—Five hours a week in the Fall term.

COMPOSITION.—Hills & Ford's First Spanish Course completed.

SPANISH B.—Five hours a week in the Spring term.

PROSE.—Ernesto Nelson's Spanish-American Reader, Lewis's Spanish Correspondence, Alarcon's Capitan Veneno, Valera's Pepita Jimenez.

SPANISH 1.—Five hours a week in the Fall term.

COMPOSITION.—Whittem and Andrade's Spanish Commercial Correspondence.

Continuation of drill in the writing and speaking of Spanish.

SPANISH 2.—Five hours a week in the Spring term.

Study and practice of Commercial Spanish. Lectures on Spanish Literature. Readings from Cervantes, Galdos, Alarcon, Valera, and other writers.

IV. SCHOOL OF ENGLISH.

Professor Sledd.

Associate Professor Rouse.

Requirements for admission to this department are given on page 43.

Students admitted on certificate to Course 1, whose work falls below the grade of 80 in the month of September, will be required to take a supplementary course of two hours a week under an instructor until the deficiency is made good.

COURSE 1.—Three hours a week. Prescribed for the B.A. and the LL.B. degree.

COMPOSITION AND RHETORIC.—The fall term is given to the formal study of Composition and Rhetoric, with the use of the Century Handbook of Writing and Greenough and Hershey's Rhetoric. Practice in Composition, however, continues throughout the year.

OUTLINE COURSE IN LITERATURE.—Second half-session. Long's History of English Literature and selection from the Century Readings. Students are examined on Montgomery's History of England.

PARALLEL READING.—In addition to the classroom work, twenty prose masterpieces are read and reported on during the year.

COURSE 2.—Three hours a week. Prescribed for the B.A. degree. Students admitted to this course on certificate from other institutions, whose work falls below the grade of 80 in the month of September, will be required to take English 1.

SHAKESPEARE.—The first half-session. Critical study of six plays in the classroom. Ten other plays are assigned for private reading and examination. The New Hudson Shakespeare and Neilson and Thorndike's Facts about Shakespeare. A set of Furness' Variorum Edition is accessible to students.

MILTON.—Rapid review of the Minor Poems and their mythology; careful study of the first six books of Paradise Lost, with readings from the remaining books. The Cambridge Milton. A good classical dictionary is necessary. Ten weeks during the second half-session.

WORDSWORTH AND TENNYSON.—During the last ten weeks of the session the Modern Period of English Literature is studied, with special attention to Wordsworth and Tennyson.

COURSE 3.—Three hours a week. Elective to those who have completed Course 2.

FALL TERM.—American Prose Writers, with special study of the Novel and the Short Story.

SPRING TERM.—American Poets, in Page's Chief American Poets.

COURSE 4.—Three hours a week. Elective to those who have completed Course 2. Students may elect either 4a or 4b. Each course continues through the year.

4a.—The purpose of this course is to give the student a knowledge of the principles of speech-writing. The instructor endeavors to supplement the work of the Literary Societies; hence the emphasis is on the preparation and writing rather than the delivery of speeches.

THE FALL TERM.—Argumentation. Foster's Argumentation and Debating, Baker's Specimens of Argumentation, and Bouton's Lincoln and Douglas Debate. Written and oral exercises with parallel reading in the speeches of Webster, Calhoun, Lincoln, Burke, and others.

THE SPRING TERM.—After a brief study of the Oration, with Shurter's The Rhetoric of Oratory as the text, the work of this term is given to the study of the special forms of public speech other than the argument and the oration. Knapp and French's The Speech for Special Occasions and Baker's The Forms of Public Address are studied. Frequent oral and written exercises are required; and Sear's The History of Oratory and the speeches of the great orators are read as parallel.

4b.—This is essentially a course in Higher Composition. An effort is made to develop in the student a sense of style, and to enable him to write not only clearly but with some distinction. The study of masterpieces goes hand in hand with the practice in composition. The best current magazines and newspapers are freely used for material.

THE SHORT STORY.—Various manuals supply critical material. For study and practice, collections of the Short Story are used.

THE ESSAY.—Bronson's English Essays.

THE NEWSPAPER.—Bleyer's Newspaper Writing and Editing.

It is hoped that this course will furnish material for the College publications.

COURSE 5.—Two hours a week. Elective. Open to those who have completed Course 2.

OLD ENGLISH.—Bright's Anglo-Saxon Reader.

CHAUCEER.—The Globe Chaucer, Root's The Poetry of Chaucer.

HISTORY OF THE LANGUAGE.—Greenough and Kittredge's Words and Their Ways in English Speech, Jespersen's Growth and Structure of the English Language.

COURSE 6.—Three hours a week. Elective to those who have completed Course 2.

THE FALL TERM.—The Contemporary Drama.

THE SPRING TERM.—The Victorian Poets, with special attention to Browning and Arnold. Lectures on Contemporary Literature.

V. SCHOOL OF MATHEMATICS.

Professor Jones.

Professor Lake.

Professor Lanneau.

Instructor Stafford.

Instructor Shanks.

COURSE 1.—Five hours weekly. Prescribed for the B.A. degree. To take this course the student must show that he has completed at least one year's work of Elementary Algebra and one year's work of Higher or College Algebra; and that he is familiar with the Laws of Exponents, Radical Expressions, Quadratic Equations, Progressions, and the Binomial Theorem. He must also show that he has thoroughly mastered the Five Books of Plane Geometry.

FALL TERM.—Solid Geometry, and original exercises in Plane Geometry.

SPRING TERM.—Plane and Spherical Trigonometry, three hours a week. Review of College Algebra, two hours a week.

COURSE 2.—Three hours weekly. A satisfactory examination on the work of Course 1 must be passed before a student will be allowed to take this course.

FALL TERM.—Analytic Geometry—Loci, the Line, the Circle, Systems of Coördinates.

SPRING TERM.—Analytic Geometry continued—the Parabola, Ellipse, Hyperbola, Higher Plane Curves, Figures in Space.

COURSE 3.—Three hours weekly. For entrance on this course satisfactory examinations on Courses 1 and 2 are required.

FALL TERM.—Differential Calculus.

SPRING TERM.—Integral Calculus.

TEXT-BOOK.—Osborne's Calculus.

COURSE 4.—Two hours weekly throughout the year. This course presupposes Course 1, but may be taken in conjunction with Courses 2 and 3. Special attention is given to review of fundamental principles of Algebra, Complex Numbers, Theory of Equations, Determinants, and Infinite Series.

FALL AND SPRING TERMS.—Advanced Algebra.

COURSE 5.—Designed particularly for students contemplating the teaching of Mathematics. For description see School of Education and Philosophy.

VI. SCHOOL OF APPLIED MATHEMATICS AND ASTRONOMY.

Professor Lanneau.

The subjects taught in this School are: Land Surveying, Mechanical Drawing, Descriptive Geometry, and Astronomy.

THE OBSERVATORY

Is well located. Its dome rotates easily. Its 5-inch telescope is unusually complete in adjusting gear, is equatorially mounted, and is moved by clockwork to synchronize with the stars. The more important attachments provided are: a Helioscope, a Filar-Position Micrometer, and a Spectroscope.

THE FIELD OUTFIT

Includes instruments of best grade—Surveyor's Compass, with Vernier and Out-keeper; Steel Chains and Pins; Ranging Rods; Engineer's Level with 20-inch Telescope; Leveling Rods, reading to one-thousandth of a foot; Sextant and Mercurial Horizon; Surveyor's Transits, with vertical arc, stadia, latitude level, and solar attachment.

THE DRAFTING ROOM

Is equipped with good tables with locked drawers for instruments and materials.

COURSE 1.—*Surveying*.—Three hours a week in recitation, the entire session, and four hours a week in field practice. Counting five in the requirements for degree.

To enter this course a good knowledge of Trigonometry is required. It includes the use, and the exact adjustments of the Compass, the Level, and the Transit; the field work embraces surveys and resurveys of land, dividing of land as required, direct-levelling, profile levelling, and determining of inaccessible distances and heights.

TEXT-BOOK.—Barton's Plane Surveying.

COURSE 2.—*Mechanical Drawing*.—Three hours a week the entire session. Counting three in the requirements for degree.

TEXT-BOOK.—Anthony's Mechanical Drawing. [Students in Courses 2 and 3 purchase their drawing instruments and material.]

COURSE 3.—*Orthographic Drawing, Descriptive Geometry*.—Three hours a week the entire session. Counting three in the requirements for degree.

TEXT-BOOK.—Anthony's or Bartlett's Descriptive Geometry.

COURSE 4.—*Astronomy*.—Three hours a week the entire session. Counting three in the requirements for degree.

To take this course requires familiarity with Mathematics 1 and Physics 1. It embraces, however, more of the physical than of the mathematical—more of the “New Astronomy.” The subject is developed by frequent lectures, by telescopic and outdoor observations, and by classroom illustrations with the Professor’s recently designed apparatus called the Cosmoid.

The aim in this course is—by text, lecture, telescope, and Cosmoid—to acquaint the student with stellar facts and cosmic theories, and to lead him into a satisfactory and ennobling knowledge of the material universe.

TEXT-BOOK.—Young’s Manual of Astronomy.

REFERENCES.—Young’s General Astronomy, The Nautical Almanac, Langley’s New Astronomy, Moulton’s Introduction to Astronomy, Loomis’s Practical Astronomy.

VII. SCHOOL OF CHEMISTRY.

Professor J. W. Nowell.

Asst. Professor A. P. Sledd.

Instructor C. S. Black.

Assistant R. W. Sullivan.

COURSE 1.—*General Inorganic Chemistry.*

This course is open to all students and aims to cover the fundamental principles of descriptive and theoretical inorganic chemistry. Lectures are illustrated as fully as possible by experiments. Three hours a week lectures and recitation, four hours a week laboratory. Both terms. Credit, 5 hours.

Professor Nowell, Mr. Black, Mr. Sledd, Mr. Sullivan.

COURSE 2-A.—*Qualitative Analysis.*

This is chiefly a laboratory course. After preliminary study of the reactions involved and the methods of separation and identification of the more common metals and acids, each student is given a different series of mixtures of unknown substances and required to find by analysis the content of each. Four hours a week, one term.

Professor Nowell, Mr. Sledd.

COURSE 2-B.—*Organic Chemistry*.—Course 1 prerequisite.

Lectures are devoted to the discussion of the hydrocarbons and their derivatives from both its practical and theoretical points of view. Remsen's *Organic Chemistry* is made a basis for the lectures. The laboratory work embraces the preparation of organic compounds illustrating the lectures of this course.

LECTURES.—Two hours a week, both terms.

LABORATORY.—Four hours a week, one term.

Professor Nowell, Mr. Sledd.

COURSE 3.—*Quantitative Analysis*.—Courses 1, 2A and 2B pre-requisite.

This is a laboratory course in the study of standard gravimetric and volumetric methods for estimating the common bases and acids. During the first term Moody's *Quantitative Analysis* is used a text. During the second term the student is required to analyze various substances such as fertilizers, foods, oils, water, coal, etc. Eight hours a week, both terms.

Professor Nowell.

COURSE 4.—*Industrial Chemistry*.—A lecture course intended to familiarize the student with various methods of synthesis and analysis in use in industrial laboratories.

Thorp's *Industrial Chemistry* is made a basis for the course. During the last month of the spring term, lectures are given on the history of the development of chemistry.

Two hours a week, both terms.

Professor Nowell.

COURSE 5-A.—*Advanced Organic Preparations*.—A laboratory course for special students in chemistry. Stress is laid on the preparation of various intermediates and dyes. Gattermann's *Organic Preparations* is used as a guide.

Eight hours a week, one term.

Professor Nowell.

COURSE 5-B.—*Advanced Quantitative Analysis*.—This course is adapted to the aims of each student, but as a rule, Treadwell and Hall's *Quantitative Analysis* is used to direct the work.

Eight hours a week, one term.

Professor Nowell.

VIII. SCHOOL OF BIOLOGY.

Professor Poteat.

Professor Kitchin.

Professor Nowell.

*Associate Professor**

COURSE 1.—*General Biology.*—The fundamental facts of the structure and activities of animals and plants; the cell, the phenomena of movement, irritability, metabolism, reproduction, heredity, development of individual organisms and races.

Three hours a week for lecture and recitation, and four hours a week for laboratory work throughout the session. Credit, 5 hours.

*Professor Poteat, Associate Professor *——*

COURSE 2.—*Botany.*—Morphology and physiology of the great groups of plants,—Algæ, Fungi, Mosses, Ferns, Flowering Plants. Material collected in the field by the class under the guidance of the Professor.

Three hours a week for lecture and four for laboratory work throughout the session. Credit, 5 hours. Biology 1 prerequisite.

Professor Poteat.

COURSE 3.—*Zoölogy.*—Morphology and physiology of animals from the Protozoa up to the higher Vertebrates. Class excursions for living material under direction of the Professor.

Three hours a week for lecture and four for laboratory work throughout the session. Credit, 5 hours. Biology 1 prerequisite.

Professor Poteat.

COURSE 4.—*Physiology and Hygiene.*—Elementary human physiology with so much of Anatomy and Histology as may be necessary; Hygiene, personal and public; plant and ani-

*To be appointed.

mal parasites, micro-organisms and disease, infection, immunity, cancer, degenerative diseases.

Two hours a week for lecture and recitation, laboratory or observational work, throughout the session. Credit, 2 hours. Required for the B.A. degree, except B.A. in Medicine.

Professor Kitchen.

COURSE 5.—*Geology*.—The rock-forming minerals, structural and dynamic Geology, progressive development of life on the planet.

Two hours a week for lecture and recitation, laboratory work, and practical exercises in the field, throughout the session. Credit, 2 hours.

Professor Nowell.

IX. SCHOOL OF PHYSICS.

Professor Lake.

The courses of this department are as given below. The texts named are those last used and are intended to indicate the character and scope of the work in the courses; right is reserved to make changes in them whenever the best interest of the classes may demand it.

The lectures of the classroom are based upon previously assigned portions of the texts, and are supplemented by quizzes, both oral and written, and problems worked by the classes.

Laboratory work, which accompanies each course, is done under the personal supervision of the Professor, who renders assistance only when it is needed. From the beginning stress is laid on the formation of correct experimental habits. Students are required to make orderly records of their experiments in books kept for the purpose, and these books are regularly examined and returned to them with criticism and suggestions.

COURSE A.—Three hours a week for lectures and recitations, and two hours a week for laboratory work. Credit 4 hours.

This course is preparatory to Course 1. It may be counted on credits for a degree only when taken in college by a student who has not offered Physics on Entrance Requirements. It embraces all the branches of General Physics,—Mechanics, Heat, Electricity and Magnetism, Sound, and Light. Stress is laid upon the leading phenomena and fundamental laws and principles. Lectures are freely illustrated by experiment. The working of problems is an important part of the course.

TEXT-BOOKS.—Black and Davis's Practical Physics; Stone's Experimental Physics.

COURSE 1.—Three hours a week for lectures and recitations four hours a week for laboratory work. Credit 5 hours.

This class continues the study of General Physics. The treatment is more advanced and more mathematical than in the previous course. Prerequisites for entrance are Physics 1 and Mathematics 1.

TEXT-BOOKS.—Kimball's College Physics, Revised Edition; Sabine's Manual; Ames and Bliss's Manual.

X. SCHOOL OF POLITICAL SCIENCE.

Professor Pearson.

*Associate Professor**

History

COURSE 1.—*Mediæval and Modern Europe.*—The history of Western Europe from the later Roman Empire to the French Revolution. Note-taking, map-drawing, and a liberal amount of library work are required. Must be taken in the Freshman year by all candidates for the LL.B. de-

*To be appointed.

gree and in the Freshman or the Sophomore year by all candidates for the B.A. except the B.A. in Medicine. Prerequisite for other courses in this School. Monday, Wednesday, Friday.

COURSE 1-X.—Europe since the French Revolution, with emphasis upon world problems during the latest period. May be substituted for History I in special cases. Monday, Wednesday, and Friday.

COURSE 2.—*History of the United States*.—A study of the essentials in the founding and evolution of the American Nation. Conducted chiefly by lecture and report. Required for B.A. in Civics. Adapted to advanced students. Tuesday, Thursday, and one other day to be arranged.

COURSE 3.—*Problems in Southern History*.—May be taken only by permission of the instructor. Offers opportunity for practice in research method. Two hours, to be arranged.

Economics

COURSE 1.—*Principles of Economics*.—An introductory study of the laws of consumption, production, exchange, and distribution of wealth. Required for LL.B. in the second year. Elective for B.A. Prerequisite for Course 2. Recommended to second year students. Monday, Wednesday, Friday.

Announcement of advanced courses will be made later.

Government

COURSE 1.—*American Government*.—The theory and practice of government, national, state, and local, with some attention to current political events. Required for LL.B. in the third year. Elective for B.A. Monday, Wednesday, Friday.

Sociology

Elective for B.A. Recommended to Seniors. Tuesday and Thursday.

XI. SCHOOL OF THE BIBLE.

Acting Professor Pool.

The work of this School is a part of the regular work of the College, and is in no sense a theological annex. There are five courses in the School open to students.

The text of the American Revision of the English Bible is the basis of the work in the Bible classes of this department. Handbooks, maps, and the Library are used, but always with direct reference to the text itself. The work of the text-book is supplemented by informal lectures designed to broaden the view, to show the relation of the books to each other and to the contemporary history, and to leave a definite impression as to the unique character of the Bible as a history of God's revelation of Himself to man.

COURSE 1.—*The Old Testament.*—Three hours a week one year. Elective. The work of this class tries to accomplish four things during the year: (1) To get a *clear and consecutive view of Old Testament history*. In getting this, the story of the Hebrew race and of their institutions as told by themselves is followed from Abraham to Nehemiah as the main line of study; and along with this the conditions and movements of other nations and countries are studied incidentally in so far as they have any bearing on the development and history of the Hebrews. (2) *The personality and the message of the several Hebrew prophets* are studied in their particular settings, and the special conditions with which they had to deal are discussed freely as sidelights to this personality and message. (3) *Hebrew poetry*. This subject is studied long enough to get an insight into the purpose and point of view of the several poetical books, and a few of the poems are studied as sample expressions of universal heart experiences. (4) *The Messianic ideal*, as a fundamental conception running

through all the books and linking them together into a unique whole, is followed and studied with as much thoroughness as the time at our disposal will permit.

COURSE 2.—*The New Testament*.—Two hours a week for one year. Elective. The work of this class will be divided into three sections: (1) *Introduction*. The political, social, and religious life of the Jews for three centuries immediately preceding the Christian era will be examined with a view to preparing the student for an intelligent appreciation of New Testament conditions. (2) *The Life of Christ*. The student is expected to acquire a consistent view at first hand of the person and teachings of Jesus as they appear in the four Gospels. (3) *The Apostolic Age*. The beginning of Christianity as a life and as a system of teaching will be studied here as they are brought out in the Book of Acts and in the Epistles.

COURSE 3.—*Christian History*.—Two hours a week for one year. Elective. The general purpose of this course is to take up the stream of Christian life and growth at the close of the New Testament period, trace its development through the succeeding centuries, and to leave the student in possession of the main facts as to the persons and movements that have given us our present-day Christendom.

COURSE 4.—*Religion*.—Two hours a week for one year. Elective. This course will embrace four sections: (1) *The fundamental place of religion in human life*. That religion is an essential part of a normal human being is the thesis of this section of the course. (2) *A candid study of the principal non-Christian religions of the world*—what they are, what they have done, and their present situation and prospects. (3) *The Christian thesis*—what it is and to what extent it has justified its claim. (4) *"The soul's competency under God"*—the controlling principle of the individual Christian and of the church in its approach to men.

COURSE 5.—*The Hebrew Old Testament*.—Three hours a week. Elective for the B.A. degree in Group 3. The class is expected to master Harper's Elements of Hebrew, along with the Hebrew Method and Manual, and to acquire such facility in reading from the historical books of the Old Testament as to be able to use commentaries on the Hebrew text, and to begin the work of Hebrew exegesis.

XII. SCHOOL OF EDUCATION

WILLIAM L. POTEAT, M.A., LL.D., *President.*

THOMAS E. COCHRAN, B.Sc., M.A., Th.M., *Professor of Education.*

———, *Professor of Philosophy.**

HUBERT MCNEILL POTEAT, M. A., Ph.D., *Professor of Latin.*

HUBERT A. JONES, M.A., LL.B., *Professor of Mathematics.*

C. C. PEARSON, M.A., Ph.D., *Professor of Political Science.*

C. A. ROUSE, Ph.B., M.A., *Associate Professor of English.*

JOHN W. NOWELL, M.A., Ph.D., *Professor of Chemistry.*

Aims and Advantages

The School of Education is a professional school which is organized primarily to meet the needs of those who expect to enter the teaching profession. Some of its courses, however, are of a general cultural value to other students.

This School offers distinct professional advantages. Students graduating from the College who have taken a certain number and type of education courses may secure a State certificate without further examination, which entitles them to hold a position as teacher or principal in State-aided high schools. The choice of courses, however, should be made only after consultation with the head of the School of Education.

Requirements for Admission

Applicants for admission to any of the classes must present fifteen units for unconditioned entrance. These units must so selected as to conform to the requirements for entrance to any of the courses leading to the degree of Bachelor of Arts in the College, as stated on pages 89-90.

Courses of Instruction**COURSE 1.—*Introduction to Education.***

This course is designed to introduce the student to the main problems and fundamental principles in the field of education. Two hours a week, both terms. Mon., Wed., 2:30.

*To be appointed.

COURSE 2.—*General History of Education.*

This course considers the evolution of educational institutions and practices, with special reference to their relationship to present-day education. Two hours a week, first term. Tues., Thurs., 2:30.

COURSE 3.—*History of Education in the United States.*

This course traces the progress of education in the United States. Two hours a week, second term. Tues., Thurs., 2:30.

COURSE 4.—*History of Education in North Carolina.*

This course deals with the current educational problems in North Carolina in the light of their historical development. One hour a week, both terms. Sat., 9:10.

COURSE 5.—*Educational Journal Club.*

The work here consists in round-table conferences and reports on current educational literature. Prerequisite: Sophomore standing and Education 1, or an equivalent. One hour a week, both terms. Time to be arranged.

COURSE 6.—*City School Administration.*

This course is intended to meet the needs of city school superintendents and principals of city high schools. The more important problems of city school administration are studied in their actual settings in so far as this is possible. Prerequisite: Senior standing, with preliminary courses satisfactory to the instructor. Omitted in 1920-21. Two hours a week, both terms. Mon., Thurs., 8:10.

COURSE 7.—*Some Problems of the Rural School.*

This course considers the more important problems confronting the county superintendent and his assistants, and the principals and teachers of rural schools. Prerequisite: Junior standing, with preliminary courses satisfactory to the instructor. Two hours a week, both terms. Mon., Thurs., 8:10.

COURSE 8.—*Principles of Secondary Education.*

The aim of this course is to examine the fundamental principles upon which sound secondary-school procedure is

based. Prerequisite: Education 1, or its equivalent. Two hours a week, first term. Mon., Wed., 1:30.

COURSE 9.—*High-School Organization and Administration.*

This course is devoted to a consideration of the problems of high-school organization and administration, with special attention to those confronting the principals and teachers of North Carolina. Prerequisite: Education 8. Two hours a week, second term. Mon., Wed., 1:30.

COURSE 10.—*Statistical Methods Applied to Education.*

The purpose of this course is to acquaint the student with statistical methods of treating facts. Special emphasis is laid on the application of such methods in the field of education. Two hours a week, first term. Tues., Fri., 8:10.

COURSE 11.—*Educational Legislation.*

This course deals with the formulation of a program of educational legislation, special attention being given to the school law of North Carolina. One hour a week, both terms. Fri., 1:30.

COURSE 12.—*Educational Sociology.*

The object of this course is to acquaint the student with the social and sociological aspects of education. Prerequisite: Junior standing and consent of the instructor. Two hours a week, both terms. Tues., Thurs., 11:10.

COURSE 13.—*The Learning Process.*

The aim of this course is to show the student the most economical methods of studying. Two hours a week, first term. Wed., Sat., 8:10.

COURSE 14.—*The Teaching Process.*

This course treats of those elements which determine the efficiency of the teacher. Prerequisite: Education 1. Two hours a week, second term. Wed., Sat., 8:10.

COURSE 15.—*Intelligence and Efficiency Tests.*

This course is intended to introduce the student to current methods of testing and grading individual intelligence and

efficiency. Prerequisite: Education 1 and Philosophy 1A, or an equivalent. Two hours a week, second term. Tues., Fri., 8:10.

COURSE 16.—*Observation of Teaching.*

This course includes the observation of classroom methods in the local high school and elsewhere, with reports. Prerequisite: Education 1 and consent of the instructor. One hour a week for conference and an average of two for observation throughout the year. Credit, two hours. Conference hour, Fri., 2:30.

COURSE 17.—*Practice Teaching in High-School Subjects.*

In this course each student is required to do at least sixty hours of practice teaching in some high-school subject, his work being under the supervision of an experienced teacher. Application should be made a term in advance. Prerequisite: Education 1, 16, a special methods course in the subject to be taught, and a general average of eighty or better in all academic work. Credit to be arranged.

COURSE 18.—*The Teaching of English in High Schools.*

This course includes a study of content as well as method. Prerequisite: Education 1 and 16, and consent of the instructor. Two hours a week, both terms. Time to be arranged.

COURSE 19.—*The Teaching of Latin in High Schools.*

This course includes a study of both content and method. Prerequisite: Education 1 and 16, and consent of the instructor. Two hours a week, both terms. Tues., Thurs., 9:10.

COURSE 20.—*The Teaching of Mathematics in High Schools.*

In this course subject-matter as well as method are considered. Prerequisite: Education 1 and 16, and consent of the instructor. Two hours a week, both terms. Mon., Wed., 10:10.

XIII. SCHOOL OF PHILOSOPHY

Professor ——— *

COURSE 1.—*Psychology, Logic, and Ethics.*

This course aims to orient the student in the fields of psychology, logic, and ethics. It is required for the degree of Bachelor of Arts. Prerequisite: Sophomore standing. Three hours a week, both terms. Mon., Wed., Fri., 11:10.

1A. GENERAL PSYCHOLOGY.—An introductory course dealing with the generally accepted facts, principles, and theories bearing upon the fundamental phenomena of consciousness. Fall Term.

TEXT-BOOKS.—Pillsbury, *The Essentials of Psychology*; Breese, *Psychology*; Angell, *Psychology*; Langfeld and Allport, *An Elementary Laboratory Course in Psychology*.

1B. ELEMENTS OF LOGIC.—An introductory study of the problems in regard to the nature and forms of reasoning, the conditions of proof, and the principles of science. First ten weeks of the Spring Term.

TEXT-BOOKS.—Sellars, *The Essentials of Logic*; Dewey, *How We Think*.

1C. INTRODUCTION TO ETHICS.—A course treating of the beginnings and growth of the moral principles and ideals, the forms of ethical theory, and the social aspects of morality. Second ten weeks of the Spring Term.

TEXT-BOOKS.—Dewey and Tufts, *Ethics*; Drake, *Problems of Conduct*.

COURSE 2.—*The History of Philosophy.*—This course is designed to familiarize the student with the development of human thought in regard to the fundamental problems of philosophy, and to prepare him to face the problems of the present from the standpoint of the history of this development. Lectures, text-books, readings, theses, and discussions. Prerequisite: Philosophy 1. Two hours a week throughout the year. Tuesday, Thursday, 11:10.

TEXT-BOOKS.—Cushman, *A Beginners' History of Philosophy*; Rogers, *Students' History of Philosophy*; Perry, *The Approach to Philosophy*.

*To be appointed.

XIV. SCHOOL OF LAW.

WILLIAM L. POTEAT, M.A., LL.D., *President.*

NEEDHAM Y. GULLEY, M.A., LL.D., *Professor of Law, and Dean of the Department.*

EDGAR W. TIMBERLAKE, B.A., LL.B., *Professor of Law.*

R. B. WHITE, M.A., *Professor of Law.*

C. C. PEARSON, Ph.D., *Professor of Political Science.*

ADMISSION.

The marked tendency of the age is toward thorough equipment for every profession. This is especially true in the Law. Therefore every young man intending to study law should take as thorough and complete a collegiate course as his circumstances will allow. No lawyer can succeed who can not write and speak correctly, and is not familiar with elementary mathematics.

Admission to Advanced Standing.—Applicants for admission to advanced standing as members of the second-year class must meet the educational requirements specified for admission to the first-year class, and must pass satisfactory examinations on all the law work of the first year. Those having license to practice law or coming from other law schools of approved standing will be admitted without examination.

Admission as Special Students.—Applicants may, in the discretion of the Faculty, be admitted to the Law School as special students, and may elect such work as they desire, subject to the permission of the professors whose subjects are selected, but they shall not be candidates for a degree.

COURSES OF INSTRUCTION.

The courses of instruction extend through three years of nine months each. The object of the Law School is to afford a thorough training in the fundamental principles of the common law of England as modified by the statutes of the State. The method of instruction involves the diligent study of text-books, selected cases, lectures, discussions, and quizzes.

FIRST YEAR.

COURSE 1.—Five hours a week.

Fall Term.—Blackstone's Commentaries (Lewis), selected cases.

Spring Term.—Clark's Criminal Law, Statutory Crimes; Bigelow on Bills, Notes and Cheques; Tiffany on Sales, selected cases.

Professor Gulley.

COURSE 2.—Five hours a week.

Fall Term.—Clark on Contracts, Mechem's Outlines of Agency, selected cases.

Spring Term.—Bigelow on Torts, Dobie on Bailments and Carriers, selected cases.

Professor Timberlake.

COURSE 3.—Five hours a week.

Fall Term.—Long's Domestic Relations, Croswell on Administrators, selected cases.

Spring Term.—Gardner on Wills, Cooley's Constitutional Law, Connor and Cheshire's Constitution of North Carolina.

Professor White.

HISTORY 1.—Three hours a week.

Professor Pearson.

SECOND YEAR.

COURSE 4.—Five hours a week.

Fall Term.—Common Law and Equity Pleading. The Code of Civil Procedure and Practice, selected cases.

Spring Term.—Jones on Evidence, selected cases. Brief-making.

Professor Gulley.

COURSE 5.—Five hours a week.

Fall Term.—Minor and Wurts on Real Property, Conveyancing, selected cases.

Spring Term.—Clark on Corporations, Cooley on Municipal Corporations, selected cases.

Professor Timberlake.

COURSE 6.—Five hours a week.

Fall Term.—Bispham's Equity, Liens, selected cases.

Spring Term.—Gilmore on Partnership, Bankruptcy, Insurance, selected cases.

Professor White.

ECONOMICS 1.—Three hours a week.

Professor Pearson.

THIRD YEAR.

COURSE 7.—Five hours a week.

Fall Term.—Clark's Criminal Procedure, Bryant on Code Pleading, Long on Federal Procedure, selected cases.

Spring Term.—Childs on Guaranty and Suretyship, Hale on Damages, selected cases.

Professor White.

COURSE 8.—Five hours a week.

Fall Term.—Minor on Conflict of Laws, Davis' Elements of International Law, selected cases.

Spring Term.—Hughes on Admiralty, Howe's Civil Law, Tiffany on Banking, Sharswood's Legal Ethics, selected cases.

Professor Timberlake.

ENGLISH 1.—Three hours a week.

Professor Sledd.

CONSTITUTIONAL GOVERNMENT.—Three hours a week.

Professor Pearson.

EXAMINATIONS.

Thorough written examinations are held when a subject is completed, and at the end of the term an examination is given on the whole work of the term.

DEGREE OF BACHELOR OF LAWS.

The degree of Bachelor of Laws (LL.B.) is conferred by the College on applicants who have successfully completed the whole work of the School of Law, together with History, Course 1; Economics, Course 1; Constitutional Government; and English, Course 1. No student is allowed to graduate except after three years of actual resident study, except in case of admission to advanced standing.

PRACTICE COURTS.

Practice courts are held on Friday night. All students are required to attend and take part in the work. The purpose of these courts is to familiarize the student with all the details of actions, both civil and criminal, from the issuing of process to final judgment.

THE LIBRARY.

In a room adjoining the lecture room is the law library. This is open every afternoon to enable students to consult the various authorities on subjects under consideration.

EXPENSES.

Students in the Law School pay the same tuition and fees as other college students and are entitled to the same privileges, and they may, without extra charge, take work in other college classes.

SUMMER SCHOOL OF LAW.

The Summer School of Law begins on the eighth day of June, and continues till the Supreme Court examination, August 23d.

The course includes the following subjects: Blackstone, Equity, Evidence, Civil Procedure, Contracts, Corporations, Real Property, Torts, Constitution of United States and of North Carolina. Two lectures daily, two hours each.

Special attention is given to preparing young men for examination on the course prescribed by the Supreme Court of North Carolina.

Students completing all subjects of the Summer School may be credited with five hours on the B.A. degree.

The fees for admission to all courses in the Summer School are twenty dollars tuition and five dollars matriculation, payable in advance.

Further information may be had by application to Professor Gulley, or Secretary Earnshaw.

XIV. SCHOOL OF MEDICINE.

WILLIAM L. POTEAT, LL.D., *President.*

THURMAN D. KITCHIN, B.A., M.D., *Dean, Professor of Physiology and Pharmacology.*

LUTHER T. BUCHANAN, B.A., M.D., *Professor of Pathology, Bacteriology, and Histology.*

HERBERT M. VANN, B.S., M.A., M.D., *Professor of Anatomy.*

J. W. NOWELL, B.A., Ph.D., *Professor of Chemistry.*

W. F. TAYLOR, B.S., M.A., *Associate Professor of Physiological Chemistry and Bacteriology.*

F. J. LANCASTER, *Librarian.*

Aim and Scope.—The School of Medicine was established in May, 1902. It combines two years of academic training with two years of medical training in such a way as to preserve the advantages of each, and at the same time make it possible for students to graduate with the baccalaureate degree and the medical degree in six years. Upon the completion of this work the College confers the degree of Bachelor of Arts in Medicine, which admits the student to the third year in a medical college. Two years of time and expense are saved by this combination.

This School undertakes to teach only those branches of medicine which can be taught as thoroughly in the small village as in the large city, namely, the laboratory studies in medicine, which form the pure science foundation of the professional course. These branches are: Anatomy, Physiology, Physiological Chemistry, Physical Diagnosis, Minor Surgery, Pharmacology, Toxicology and Pharmacy, Histology, Embryology, Bacteriology, and Pathology. This work is simply an extension in a special direction of scientific work which the College has done for years.

Recognition.—Certificates of recommendation for advanced standing in medical colleges are given to those students only who have completed the Bachelor of Arts in Medicine, or the Bachelor of Arts, and the two-year medical course. Such students are admitted to advanced standing without examina-

study cross-sections of the body through different regions. Three hours per week throughout the entire year.

TEXT-BOOK.—Davis and Woolsey.

COURSE 6.—*Minor Surgery*.—Instruction in bandaging and minor surgery two hours per week throughout the entire year.

TEXT-BOOK.—Stewart and Wharton.

Elective Work.—Special injections for dissections and facilities for research work in embryology will be provided for students wishing to do advanced work in anatomy.

Department of Physiology and Pharmacology

Professor Kitchin.

Associate Professor Taylor.

Assistant H. W. Lee.

FIRST YEAR.

COURSE 1.—*Physiology*.—Two hours of lecture, quiz, or laboratory per week throughout the first year. Lectures deal with blood, lymph, the circulatory and respiratory systems.

TEXT-BOOK.—Howell.

SECOND YEAR.

COURSE 2.—*Advanced Physiology*.—Three hours of lecture and four hours of laboratory per week throughout the year.

This course consists of lectures, recitations, and laboratory work. The subjects taken up include the nerve, muscle, digestion, secretion, excretion, metabolism, and nutrition, the central nervous system, and the organs of special sense.

This laboratory course consists of the performance of the important fundamental experiments in physiology. The class works in groups of two, and each group is supplied with necessary apparatus. Each student is required to preserve a record of his experiments and observations in a note-book. This note-book is examined and criticised weekly and constitutes part of the work on which his grade is based. Opportunities are offered for physiological research to those students who are properly equipped. The final examination is both written and practical.

TEXT-BOOK.—Howell.

COURSE 3.—*Pharmacology*.—A course of lectures and recitations of two hours per week throughout the year. Here, especial emphasis is laid upon the physiological action of drugs and other remedial agents upon the normal organism. Drugs are studied in groups, and thorough observation is made of a given group upon any one of the systems of the body. For example, the circulatory system is reviewed from the viewpoint of the physiologist; then a group of drugs, as digitalis, strophanthus, caffeine, adrenalin, and nitrites, are studied in detail with a view to their pharmacological effect upon the circulation.

Laboratory work begins in the spring term of the second year. Six hours per week. Experimental tests upon animals by each student show the effect of the drug which has been previously discussed in the lecture room. Students work in pairs, as a rule, and each desk is supplied with the necessary equipment.

TEXT-BOOK.—Sollmann and Hare.

LABORATORY MANUAL.—Sollmann.

COURSE 4.—*Pharmacy*.—An elementary course in pharmacy is given, one hour per week through the Spring Term of the second year. Typical pharmacopœial preparations are made, weights and measures, incompatibles, criticism of prescriptions and prescription writing, and the use of official preparations are dealt with. Each member of the class is required to make the important preparations in common use.

TEXT-BOOK.—Thornton.

COURSE 5.—*Physiological Chemistry*.—Two hours of lecture or recitation and three hours of laboratory work per week during the Spring Term of the second year of the Medical Course. The lectures are devoted to the discussion of the carbohydrates, fats, and proteins; enzymes, and processes of fermentation and digestion; the chemistry of the blood, urine, milk, tissues, and secretions, and the end-products of metabolism.

The laboratory work consists of the qualitative and quantitative examination of the substance treated in the text and lectures.

COURSE 6.—*Toxicology*.—Laboratory work; two hours per week through half the spring term. Attention is paid to the definition

tion in medical colleges proper. Membership in the Association of American Medical Colleges and admission to the list of "registered" medical schools issued by the Regents of the University of the State of New York, insure to our students the same recognition accorded to students from any other college.

Requirements for Admission.—The requirements for admission to the College are set out at page 41.

No student is admitted to any of the classes of the School of Medicine until he has completed two years' work in college classes or its equivalent.

Equipment.—The School of Medicine is adequately equipped with suitable laboratories, apparatus and material. The Alumni Building, constructed especially for laboratory purposes, is 65 by 80 feet, and three stories high. In it are the Anatomical, Physiological, Histological, Embryological, Bacteriological, Pathological, Biological, Bio-chemical, Pharmacological, and Toxicological laboratories. Besides these there are private laboratories for the professors.

A Medical Society has been instituted in which, with the coöperation of the Departments of Anatomy, Physiology, Pathology, and Pharmacology, students are required to meet for discussion of published papers, and to prepare papers on the subject assigned for the month. All students have access to the leading scientific journals bearing upon the work of the above-mentioned departments.

A Medical Library of reference volumes and important journals, maintained by the William Edgar Marshall Memorial Fund and the Bryan Spivey Bazemore Memorial Fund, is in the medical building in charge of a special librarian. Students are required from time to time to abstract and discuss important topics treated in the various journals.

Expenses.—Students of the School of Medicine pay the same tuition and general college fees as other students with an additional laboratory fee of \$12.50 per term, and are entitled to the same privileges, and they may, without extra charge, take work in other departments.

Department of Anatomy

Professor Herbert M. Vann.

Assistant R. T. Liles.

FIRST YEAR.

COURSE 1.—*Osteology Laboratory.*—Twenty-five hours per week for the first five weeks of the session. All of the bones of the body are carefully studied in detail.

COURSE 2.—*Gross Anatomy Laboratory.*—Dissection of the entire body. Twenty-two hours per week with recitations throughout the session.

TEXT-BOOK.—Cunningham Text, with Dissectors.

COURSE 3.—*Gross Anatomy of the Central Nervous System and Sympathetic System.*—Four hours per week throughout the second term are devoted to this course. Gross sections of brain and cord are distributed among the students and drawings are made by each.

COURSE 4.—*Embryology.*—In the first few weeks the elementary structures of embryology are studied, after which the students have opportunity to incubate, fix, stain, cut, and mount the serial sections of the eight and twenty-eight somite chick. Serial sections of the chick and 12mm. pig are studied in detail. Opportunity is afforded each student to make wax reconstructions of the parts in toto or of the various organs. Four hours per week throughout the entire year.

TEXT-BOOK.—Printins and Arey.

SECOND YEAR.

COURSE 5.—*Applied Anatomy.*—In this course the student is required to review the anatomy of the entire body from a practical standpoint and to make special dissections of different parts and

eases; vital statistics, and industrial and personal hygiene. Each student will be required to hand in a brief report of a sanitary survey of the town or city in which he lives.

XV. SCHOOL OF PHYSICAL EDUCATION.

Director Langston.

All candidates for the degree of Bachelor of Arts are required to take three years of class work in the Gymnasium. All candidates for the degree of Bachelor of Laws are required to take two years of class work in the Gymnasium. Exceptions are made from the above requirements: (1) In case of students who present certificates of work done in other institutions of like standing with Wake Forest College. (2) In case of students whose total time of residence in Wake Forest College is less than the requirements stated above.

Until the senior year of his college course every student not excused by the Faculty on the advice of the Medical Examiner, must register for work in Physical Education. In case of twelve unexcused absences, the student will automatically cease to be a member of the student body.

Absences from class will be excused only when permission is allowed in advance by Dean or Director, or when excuse is granted by the College Physician.

For every unexcused absence from class, 3 points will be deducted from the student's grade, and such an absence can not be made up.

A student whose grade for any term is below 60 will not be given credit for any part of the term's work.

A student who receives a grade between 60 and 70 will be given credit for only one-half of the term's work.

Within two weeks after the opening of every session every student is required to present himself to the College Physicians for medical examination, and report of defects revealed

by this examination will be made to the Dean of the College. Within three weeks after his first matriculation every student is required to present himself to the Director of the Gymnasium for physical examination.

An extra fee of \$1 will be charged for medical and physical examinations after expiration of the above periods.

Students who have not reported for physical and medical examinations will not be allowed to register for class work in the Gymnasium.

CLASSES.—Every day the 5th, 6th, and 7th periods. Special class for advanced work, 4:30 to 5:30. Students are graded as in the other schools of the College, and these grades are reckoned in making up the general average.

and grouping of poisons; the detection of poisons in mixtures; the properties and individual tests for poisons; the importance, properties, and detection of ptomaines.

Before completion of the course each student is given a different series of unknowns, in water, fecal matter, or gastric juice, and required to ascertain by analysis the contents of each.

TEXT-BOOK.—Practical Physiological Chemistry, Hawk.

Department of Pathology and Histology

Professor Luther T. Buchanan.

Assistant W. H. Woody.

Assistant T. C. Wyatt.

COURSE 1.—*Pathology*.—Three hours a week for lectures and three hours laboratory work during the Fall Term and six hours a week for lectures and six hours laboratory work are required during the Spring Term. Written tests given each month.

The course comprises: (a) Lectures and laboratory work in general and special pathology with detailed histological study of all material given out. (b) Lectures on morbid physiology. (c) Lectures and demonstrations in parasitology. (d) Lectures and demonstrations in infection and immunity.

TEXT-BOOK.—*Text-book of Pathology*, Delafield and Prudden.

REFERENCE BOOKS.—The standard journals of Pathology on file in the Medical Library; *Principles of Pathology*, Adami and Nicholls; *Pathological Technique*, Mallory and Wright; *Principles of Pathologic Histology*, Mallory; *A Text-book of Pathology*, Stengel and Fox; *Text-book of Pathology*, Adami and McCrae.

COURSE 2.—*Histology*.—In the beginning of this course the first six weeks are devoted to microscopic technique. The student is required to secure various tissues and run them through the different processes preparatory to microscopic study, after which the College furnishes histological slides. Two lectures and four hours laboratory throughout the first year of the Medical Course.

TEXT-BOOK.—*Manual of Histology*, Jordan.

REFERENCE BOOKS.—*Anatomy*, Piersol, Cunningham, and Cunningham's Dissector; Reference, Morris and Quain. *Embryology*, Prentiss, Bailey, and Miller. *Histology*, Stohr, Lewis, Bailey, and Piersol.

COURSE 3.—*Physical Diagnosis*.—Two hours weekly throughout the year. Instruction is devoted to the fundamental principles and methods of physical examination, together with special emphasis of the normal subject. Clinical cases are demonstrated during the last half of the session as they arise, particularly diseases of the Respiratory and Cardio-Vascular Systems.

TEXT-BOOK.—*Physical Diagnosis*, DaCosta.

Department of Bacteriology and Hygiene

Associate Professor W. F. Taylor.

Assistant W. H. Woody.

COURSE 1.—*Bacteriology*.—During the Fall Term of the second year of the Medical Course three lectures and nine hours of laboratory work a week are devoted to this subject. The lecture course covers the history and scope of bacteriology and the biology of bacteria, with a thorough course in the theories of immunity, its production, and its relation to disease. Much attention is paid to the various serum reactions and technique, and the action of toxins and anti-toxins. All of the important groups of disease causing bacteria are studied by each student individually.

The laboratory work consists of the preparation of the various culture media, the methods of sterilization and disinfection, the cultivation and study of bacteria, and the principles of the various biologic tests and staining procedures. The laboratory course includes the practical application of bacteriology to diagnosis, and each student is required to become familiar with the principles and technique of the various serological reactions, such as the Wassermann, Widal, and other serological reactions.

TEXT-BOOK.—*Text-book of Bacteriology*, Hiss and Zinsser.

REFERENCE BOOKS.—The standard journals of Bacteriology, Hygiene, and Parasitology on file in the Medical Library; *General Bacteriology*, Jordan; *Pathogenic Microorganisms*, Park-Williams; *Immune Sera*, Bolduan; *Hygiene and Sanitation*, Rosenau; *Principles of Hygiene*, Bergy; *Manual of Practical Hygiene*, Harrington-Richardson; *Bacteriologic Technique*, Eyre.

COURSE 2.—*Hygiene*.—Two hours per week throughout the Fall Term. This course consists of lectures embracing public health; milk, food, and water supply; the control of communicable dis-

Not more than three courses designated by letters in the Schools of Latin, Greek, and Modern Languages may be counted as credits for the degree.

Only one course in Law (5 hrs.) may be elected for the degree.

In Group 3, a total of 9 hours in Bible may be counted as credits for the degree.

In Groups 1, 2, 4, and 5, only 5 hours in Bible may be elected.

In Group 4, a total of 9 hours in Education may be counted as credits for the degree.

In Groups 1, 2, 3, and 5, only 6 hours in Education may be elected.

For the degree of Bachelor of Arts the order of work is prescribed by years as follows:

FRESHMAN YEAR.

English 1 (3), Mathematics 1 (5), Foreign Language 1 (5) and Chemistry 1 (5) or Physics 1 (5) or Biology 1 (5).

SOPHOMORE YEAR.

English 2 (3), Foreign Language 1 (5), History 1 (3), and Chemistry 1 (5) or Physics 1 (5) or Biology 1 (5). Two Sciences must be completed by the end of the Sophomore year. Electives to make a total of not more than 18 hours a week.

JUNIOR YEAR.

From work prescribed under the group elected, not less than 6 hours.

Elective, 10 to 12 hours.

SENIOR YEAR.

Philosophy 1 (3).

Electives to complete course.

Bachelor of Arts in Medicine

To be entitled to the degree of Bachelor of Arts in Medicine the student must have completed the following courses:

- English 1 (3 hrs.)
- Plane Trigonometry ($2\frac{1}{2}$ hrs.)
- German B or German 1 or German 2 ($2\frac{1}{2}$ hrs.)
- French B or French 1 or French 2 ($2\frac{1}{2}$ hrs.)
- Chemistry 1 (5 hrs.)
- Chemistry 2 (4 hrs.)
- Biology 1 (5 hrs.)
- Biology 2 or Biology 3 ($2\frac{1}{2}$ hrs.)
- Physics A and one-half of Physics 1 or Physics 1 (5 hrs.)
- Psychology ($1\frac{1}{2}$ hrs.)
- Anatomy 2 years (14 hrs.)
- Physiology (7 hrs.)
- Histology (4 hrs.)
- Physiological Chemistry (2 hrs.)
- Bacteriology (3 hrs.)
- Pathology (5 hrs.)
- Pharmacology (3 hrs.)
- Toxicology (1 hr.)
- Surgery and Bandaging (1 hr.)
- Physical Diagnosis (1 hr.)
- Embryology (4 hrs.)
- Hygiene (1 hr.)
- Physical Education (3 years)

Degrees

The degrees conferred are Bachelor of Arts, Master of Arts, and Bachelor of Laws. Candidates for Bachelor of Arts and Bachelor of Laws must present the fifteen units required for entrance in addition to the courses indicated below. No subject counted in the entrance credits may be counted in the courses specified for degrees. If a subject which is prescribed for a degree is offered for entrance credit, the full number of recitations required for the degree must be made up out of the list of electives.

Bachelor of Arts

To be entitled to the degree of Bachelor of Arts the student must have completed the Prescribed Courses and one of the Elective Groups set out below:

Prescribed Courses:

English 1 and 2 (6 hrs.)

Mathematics 1 (5 hrs.)

History 1 (3 hrs.)

Philosophy 1 (3 hrs.)

Biology 4 (2 hrs.)

One Language of the following:

French 1 and 2 (5 hrs.)

German 1 and 2 (5 hrs.)

Spanish 1 and 2 (5 hrs.)

Greek 1 (5 hrs.)

Two Sciences of the following:

Chemistry 1 (5 hrs.)

Physics 1 (5 hrs.)

Biology 1 (5 hrs.)

Physical Education (3 years)

Elective Groups:

GROUP 1. LETTERS.

Latin 1 (5 hrs.)

Latin 2 or Greek 2 (3 hrs.)

French 1 or German 1 or Spanish 1 (5 hrs.)

English (6 hrs.)

Electives to make total number of hours offered for degree 64.

GROUP 2. CIVICS.

Latin 1 (5 hrs.)

Economics 1 (3 hrs.)

Government (3 hrs.)

History 2 (2 hrs.)

Foreign Language or English (3 hrs.)

Electives to make total number of hours offered for degree 64.

GROUP 3. MINISTRY.

Latin 1 (5 hrs.)

Bible 1 (3 hrs.)

Bible 2 (2 hrs.)

Bible 3 (2 hrs.)

Greek 2 (3 hrs.)

Greek 5 (3 hrs.)

Electives to make total number of hours offered for degree 64.

GROUP 4. EDUCATION.

Latin 1 (5 hrs.)

Education 1 (3 hrs.)

Education 3 (3 hrs.)

Foreign Language or English (3 hrs.)

Mathematics 2 or Latin 2 or Greek 2 (3 hrs.)

Electives to make total number of hours offered for degree 64.

GROUP 5. GENERAL SCIENCE.

German 1 and 2 or French 1 and 2 or Spanish 1 and 2
(5 hrs.)

Biology 1 or Physics 1 or Chemistry 1 (5 hrs.)

Biology 2 or Biology 3 or Chemistry 2 or Physics 2 (4 hrs.)

Economics 1 (3 hrs.)

Foreign Language (3 hrs.)

Mathematics 2 (3 hrs.)

Electives to make total number of hours offered for degree 64.

Organization of Classes

Students are admitted to registration only after their course of study has been approved by the Examiner.

No student will be admitted to the Freshman Class who is deficient on more than 2 units of entrance work.

When a student enters conditioned he will be required to take work during his Freshman year on his deficiencies. All deficiencies must be removed before the beginning of the Sophomore year.

Students who come to the College conditioned on more than 2 units of entrance work are graded as Special Students and are not counted as members of the Freshman Class.

For admission to the Sophomore Class a student must have removed all entrance conditions and completed without condition not less than 12 hours of work toward a degree.

For admission to the Junior Class a student must have completed without condition 28 hours of work towards a degree.

For admission to the Senior Class the student must have completed without condition 46 hours of work towards a degree.

Recitations and Examinations

Each student is expected to take at least fifteen recitations a week. No student may take more than eighteen recitations a week except by special permission of the Faculty, and upon the payment of \$2 a term in advance for each additional recitation. Credit on work above eighteen recitations is not given unless both these conditions are met. Failure to make an average monthly grade of 90 on each subject will debar the student from this privilege.

Every unexcused absence from a class will count a zero.

Absences are counted from the organization of classes, and absences from classes will be excused only when permission is allowed in advance by the Professor or the Dean. Absences allowed by the Dean or a physician must be certified to the Professor. The certificate of the Dean or a physician will not excuse the student from making up the class work missed in his absence. In a five-hour study three absences in any calendar month will necessitate an examination covering the work of that month. In a study coming less frequently than five times a week two absences will necessitate such an examination. Two tardies will be regarded as equivalent to an absence. Failure to stand any of these examinations will prevent the student from passing on the subject involved.

To pass in any subject the student must make an average grade of 70. Students who make an average of less than 65 on either term's work in subjects which continue throughout the session are not allowed to make up the deficiency by averaging this grade with the other term's work. Students who make below 55 on any subject for any term will be required to take the subject again in class. A student who receives a grade between 55 and 65 on any course, must take a special examination on such work within 60 days after the opening of the next term. Conditions not removed within the specified time shall count as failures, and the student will be required to repeat the course. All conditions must be removed by April 4 of the Senior year.

One special examination will be allowed any student failing to pass any subject, provided, first, that he has not fallen below 55 on the previous trial, and, second, that he present to the Professor the Bursar's receipt for an examination fee of two dollars and fifty cents. If a student fails to pass on this special examination he will be required to take the work in class again. The special examination fee will be

*Spring term.

†Fall term.

Master of Arts

To be entitled to the degree of Master of Arts the student must have received the degree of Bachelor of Arts and completed an additional year's work of not less than fifteen hours a week done in residence. Applicants will be allowed to count on the requirements for this degree only work done after receiving a Bachelor's degree. One-half of this work must be done in one non-professional department or group of kindred departments, and in every instance must be approved beforehand by the Committee on Graduate Studies.

The candidate for the degree must prepare a thesis under the direction of the professor in whose department the major part of his work is done. The subject for this thesis must be submitted and approved not later than October 15, and the thesis must be completed and approved not later than April 15.

Bachelor of Laws

To be entitled to the degree of Bachelor of Laws the student must have completed the subjects named below. Studies which have been counted for the LL.B. degree will not be accepted as electives for the B.A. or the M.A. degree. Attendance in the Gymnasium is required of all candidates for the LL.B. degree, three periods a week for two years.

Prescribed for Bachelor of Laws. (Fifty-two hours.)

Law 1, 2, 3, 4, 5, 6, 7, and 8 (40 hrs.), Economics 1 (3 hrs.), Government (3 hrs.), History 1 (3 hrs.), English 1 (3 hrs.).

For the degree of Bachelor of Laws the order of work is prescribed as follows:

FRESHMAN YEAR.

History 1 (3), Law 1 (5), Law 2 (5), Law 3 (5).

JUNIOR YEAR.

Economics 1 (3), Law 4 (5), Law 5 (5), Law 6 (5).

SENIOR YEAR.

Government (3), English 1 (3), Law 7 (5), Law 8 (5).

remitted, first, in case of students who present a physician's certificate of illness; second, in case of conflict with other college duties.

No student is allowed to represent the College in any public function, or as editor of any of the College periodicals, whose daily grade in any class is below 70, or whose unexcused absences from Chapel or Gymnasium exceed 8, or who, in case of attendance during a previous term, has not completed without conditions at least 12 hours of that term's work.

Except in the Schools of Law and Medicine, classes are examined only at the times designated by the Faculty.

During examination no student, without permission from the instructor in charge, is allowed to sit at the same table with a member of his class, to consult any book or document, or to have communication with any person except the instructor. Examination papers are accompanied by a written pledge that no aid has been given or received.

In the Summer School no student may take more than one five-hour course, or two three-hour courses. The maximum credit for this work is 6 hours.

Reports

At the end of each term a report is sent to the parent or guardian of the student, showing his precise grade of scholarship and the total number of his absences from recitations and religious exercises.

The reports are designed to maintain communication with parents and guardians, to elicit their counsel and encouragement, and thus bring to bear practically and directly upon every student the influence of home. Prompt attention, therefore, it is hoped, will be given to the suggestions contained in these reports.

Addresses

On the third Monday in March the Faculty selects six members of the Senior Class as speakers for Commencement Day. Their addresses are limited to one thousand words in length. Each speaker must submit his graduating address to the President at least ten days before Commencement Day.

At the first meeting in May each of the Literary Societies may elect two of its members from the Senior Class to deliver original addresses on Society Day. Anniversary speakers are not eligible to these positions. All addresses must be approved by the President.

On the diplomas of Bachelors of Arts whose average grade is not less than 98 shall be inscribed the words *summa cum laude*; in case of an average grade less than 98 but not less than 95, the words *magna cum laude*; in case of an average grade less than 95 but not less than 90, the words *cum laude*.

Discipline

The discipline of the College is adapted and intended, not for boys, but for young men who have reached such maturity as enables them to exercise self-control. All students are expected to be faithful in work, prompt and regular in attendance upon all their college duties, and, in their relations with their instructors and fellow-students, to cultivate those amenities which are universally recognized among gentlemen. Profanity, gambling in any of its forms, and the use of intoxicating drinks will not be tolerated. Sport or exercise likely to annoy persons or injure property is forbidden.

Students wishing to go farther than four miles from the College must obtain permission from the Dean of the College or his representative.

A student not in good standing is debarred from representing the College in any public function.

Young men who will not respond to this generous *régime*, who have formed vicious habits, or who can not restrain themselves from mischief and from annoyance to their fellow-students, will not be tolerated in the institution.

Literary Societies

There are two Literary Societies—the Philomathesian and the Euzelian. Each Society holds two meetings a week—one on Friday night, for debate, the other on Saturday morning for exercises in composition and speaking and for the transaction of general business. In all these exercises the members are required to participate. The Faculty regards the Societies as important aids in the work of education and in the preservation of wholesome sentiments among the students. It would be difficult to overestimate their importance in imparting a knowledge of parliamentary law, in cultivating and directing the taste for reading, and in the formation of correct habits of public speaking. Any student, after the fourteenth day from the date of his registration, on obtaining written permission of the President, may connect himself with either of these Societies, provided its membership shall be less than three-fifths of the aggregate membership of both of them.

Students are required to join one of the Societies within two months after registration, unless excused by the Faculty.

Any student expelled from either Society is dismissed from the College.

The exceptional excellence and value of these two Societies are believed to be due, in part, to the fact that no other secret societies of any kind are allowed to exist among the students. The Trustees prohibit all other secret societies in the College, including Greek letter fraternities, local or national. On September 28, 1913, they reaffirmed their long-settled policy in the following resolutions:

Resolved 1. That we most emphatically express our disapproval of clubs or social orders of any kind whatsoever, whether regularly organized or not, which segregate themselves from the student body.

Resolved 2. That no student shall be permitted to remain at the College who violates in letter or in spirit the above resolution.

Resolved 3. That the Faculty require of each student before matriculation a pledge to abstain from joining any such order or social club as indicated in the first of these resolutions.

Several Medals are offered by the Societies.

In the Philomathesian Society—

To the best orator of the Senior class.

To the best orator of the Junior class.

For the greatest improvement in oratory and debate in the Sophomore class.

For the greatest improvement in oratory and debate in the Freshman class.

In the Euzelian Society—

The Thomas Dixon, Jr., Medal, to the best orator of the Senior class.

The Euzelian Medal, to the best orator in the Society.

For the greatest improvement in oratory and debate in the Junior class.

For the greatest improvement in oratory and debate in the Sophomore class.

For the greatest improvement in oratory and debate in the Freshman class.

Medals are offered by *The Wake Forest Student* as follows:

For the best essay.

For the best story.

The Societies celebrate their anniversary on the Friday nearest the 14th of February in each year with a joint debate in the afternoon and orations in the evening.

The Library

MRS. ETHEL TAYLOR CRITTENDEN, *Librarian*

Student Assistants

G. R. SHERRILL

T. T. HAMILTON

R. D. POE

R. E. AVERITT

O. T. GLENN

L. Y. BALLENTINE

W. O. KELLEY

The Library Building contains the stack room, where some 23,000 books are housed, and the reading room, where national and state newspapers and current periodicals are available. This room is also extensively used for class room reference and for debate work.

The Library is a depository for North Carolina and Baptist material, a distinct effort being made to develop research work.

Any books, pamphlets, church records, newspapers, old letters and manuscripts will be gladly accepted.

During the past year donations have been made to the Library by the following:

Hight C. Moore, Mrs. W. C. Brewer, Mrs. Frank Chappell, Mrs. Priestly Mangum, Mr. George Wall, Miss Ida Poteat, E. L. Middleton, Dr. Lansing Burrows, G. W. Paschal, W. L. Poteat, G. T. Stephenson, M. D. Haywood, Clarence Poe, H. M. Poteat.

The Museum

The College Museum contains a considerable variety of minerals, a series of typical fossils, and specimens of the chief groups of animals, besides other interesting objects. It is, therefore, a valuable aid in the teaching of the sciences. The students and other friends of the College are asked to help in the enlargement of the collection.

Wake Forest Alumni Association

The objects of the Association are:

1. To preserve and quicken on the part of the Alumni and others such an interest in Wake Forest College as will and the establishment of scholarship and other loan funds; secure: (a) the attendance of students by personal work (b) the improvement of equipment and the enlargement of income by gifts and bequests; (c) the widest service of the College to its constituency through its laboratories, professors, and publications; (d) the safeguarding and encouragement of the Philomathesian and Euzelian Societies; (e) the purity and efficiency of competitive athletics.

2. To foster and extend throughout North Carolina the spirit of education, and, according to opportunity and a wise public policy, to enlarge the provision for public, private, and denominational education.

3. To record and publish the history and influence of the College as illustrated in the lives of individual Alumni.

4. To organize branch Associations for the better promotion of these purposes, with the understanding that this Association assumes no responsibility for the financial obligations of any branch Association.

The annual meeting is held at the College on Thursday evening of Commencement week, at which time a member chosen a year before delivers an oration.

The annual address for 1919 was delivered by Rev. Dr. A. T. Robertson, Louisville, Ky.

The following are the general officers of the Association:

President—CLARENCE D. GRAVES.

Vice-President—E. W. TIMBERLAKE.

Secretary and Treasurer—J. B. TURNER, Wake Forest, N. C.

Assistant Secretary and Treasurer—F. K. POOL.

Orator—HON. S. M. BRINSON.

Alternate—J. B. WEATHERSPOON.

Athletics

The College encourages all manly sports. Especial emphasis is placed on outdoor sports and every student is urged to spend some part of the day in vigorous open-air exercise. For this purpose there are baseball diamonds and tennis courts. All sports and games are under the direction of the Athletic Association, a student organization. The Faculty exercises a general advisory control through its Athletics Committee.

In order to become a member, or a subordinate member, of any athletic team, the student must conform to the following regulations:

1. He must be a *bona fide* student, having at least 13 units of entrance credits, and taking not less than 15 hours of work, and must have registered not later than the first Tuesday in October.

2. His unexcused absences from chapel services or gymnasium must not exceed 8 for the term; he must make an average daily grade of as much as 70 in each of his classes, and, in case of attendance during a previous term, must have completed without conditions at least 12 hours of that term's work.

3. The application must be approved by the Dean of the College.

4. Any student who has participated as a player on a college team in either football, baseball, or basketball for a period of four years shall thereafter be ineligible for such athletic contests of the College.

5. No student shall be eligible for any athletic team who receives directly or indirectly any remuneration for his athletic services, or who shall have played upon or been a member or substitute member of any of the professional or league teams named in classes A, B, C, and D in the publications of the American Sports Company.

6. Students who come from other institutions of collegiate rank will not be allowed to represent the College in inter-collegiate contests during their first year in Wake Forest College.

An athletic team may be allowed absence from the College for periods aggregating not more than five days in any one session, not including Saturdays.

Publications

The Euzelian and Philomathesian Societies publish a magazine known as *The Wake Forest Student*. It is now in its thirty-sixth volume, and deserves the support of the friends of the College and of the Alumni in particular. Dr. J. H. Gorrell represents the Faculty in its editorial control.

Old Gold and Black is a weekly publication devoted to the interests and activities of the students.

The Young Men's Christian Association publishes annually a manual for the convenience of students.

The general student body publishes a college annual, *The Howler*.

The *Bulletin of Wake Forest College* is published quarterly by the Trustees.

Religious Exercises

Chapel services are held each week day, and all the students are required to attend them. Students who are not in their assigned seats when the service begins are marked absent.

In the case of twelve unexcused absences a student will automatically cease to be a member of the student body.

Students will be graded upon Chapel attendance, and these grades will be reckoned in determining distinctions at graduation.

A well organized Baptist church worships every Sunday and holds a prayer meeting every Wednesday evening.

In connection with the church is a well equipped Sunday School largely attended by the students. Professor R. B. White is the superintendent; and among the teachers are several professors of the College who conduct Bible classes especially designed for students. A missionary society meets once each month.

An essential feature in the religious life of the College is the Young Men's Christian Association. It is the largest organization among the students—two-thirds of them being actively connected with it. The purpose of the Association is to help the students to practice the truth as they learn it, to preserve their loyalty to Christ, and to win their fellows to Him. For several years the Association has made special efforts more effectively to influence the non-ministerial students. In this it has succeeded, and now the president and other principal officers come from this section of the student body. The Association assembles immediately after supper on Monday evenings for prayer meeting. These meetings are usually led by some student selected by the chairman of the religious meeting committee. Each year the Association sends a number of delegates to the Interstate Convention and to the Student Conference. It organizes both Bible Study Bands and Mission Study Bands. These bands, each with its leader, meet regularly once a week. The present officers are: President, F. C. Feezor; Vice-President, T. C. Wyatt; Recording Secretary, Ralph Poe; Corresponding Secretary, O. T. Glenn; Treasurer, E. H. Potts.

Ministers

There is no theological department in the College. Of the total number of students this session, ninety-six are ministers.

In pursuance of the purpose of the North Carolina Baptist State Convention to provide an educated ministry for the churches which compose it, ministerial students receive assistance in several ways. They are not required to pay the tuition fee. Again, those who have been licensed to preach and are unable to command the means necessary to defray the cost of board, may receive aid for this purpose from the Board of Education of the Baptist State Convention, so far as the means may be at its disposal. Dr. R. T. Vann, Corresponding Secretary of the Board of Education, Raleigh, N. C., will give all who need it information on this point.

The Professor of the Bible conducts a class each year which studies one of the more important lines of a minister's work. This class meets once a week. Its work is not credited on the requirements for any college degree. The testimony of those who take this work, however, is that it is of value to them both in forming right conceptions of the ministry as such, and in doing the work of a minister while in college.

Scholarships

The Board of Trustees has established sixty-eight scholarships in the academies and graded schools of North Carolina. The Faculty has adopted the following conditions upon which appointment to one of these scholarships is made:

The appointee must be a male student of the white race, of good moral character, who has made the highest grade on competitive examination conducted under the direction of the principal or other person in charge of the school entitled to the scholarship. The appointment is for one year only, but the scholar so appointed is eligible to reappointment, *provided* (1) his depart-

ment is blameless, and (2) he has made a passing grade on each study taken the previous year, making, in the case of reappointment for a second year, a minimum average of 85 on all studies taken the first year, and, for a third year, a minimum average of 90 on the second year's work. The scholarship is not available to the same student beyond three years. In case the scholar fails of reappointment for a subsequent year, the school may make a new appointment on the conditions given above. The scholar may be called upon to render such service as the institution may require, the amount not to exceed five hours per week.

College Expenses

Required of all Students—

Tuition per half-session.....	\$25.00
Matriculation fees per half-session.....	25.00

The matriculation fee includes library, lecture, contingent, athletic,* hospital, physician's attendance, and all laboratory fees except those in the Department of Medicine. Juniors and Seniors in this department are charged \$12.50 per term of five months for laboratory material. Students who complete their registration on the first or the second day of the term will be allowed a discount of \$5.00 on the matriculation fees.

The graduation fee is \$5.00, payable February 1 of the Senior year.

A student taking more than eighteen hours of work a week is charged a fee of \$2.00 a term for each hour of additional work.

No student is allowed to enter any class without the Bursar's certificate of registration.

The charges are due in advance, registration being conditioned upon the payment of the matriculation fees. No deduction from the charges is made except in case of protracted illness.

*The athletic fee admits the student to all intercollegiate contests at Wake Forest.

Ministerial students and the sons of such ministers of the Gospel as live by the ministry receive free tuition. A minister who asks for the remission of this tuition fee must present his license and sign a note for tuition which will be canceled after five years of service in the ministry or in case of death.

Board and Lodging

Table board can be obtained in private families at \$4.00 to \$5.00 per week. Lodging can also be obtained in private families at moderate rates.

A number of students make arrangements for club-board-ing. A steward, chosen by each club, buys supplies and keeps accounts. The services of a lady are secured to super-intend the preparation of food and to preside at the table. The price of board is thus reduced to its actual cost, which seldom exceeds \$3.75 to \$4.00 per week.

Furnished rooms, with heat and light, in the old Dormitory building are rented, at \$25 for the fall term and \$30 for the spring term, payable in advance—one-half paid by each occupant; in the new Dormitory the price per student for the fall term ranges from \$16 to \$25; for the spring term from \$20 to \$30. A deposit of \$5 is required in advance of each occupant of both the new and the old dormitories and is returned, less any damage done the room or the furniture, after the close of the session.

To these college rooms the following regulations apply:

Students holding rooms at the close of one session may reserve them for the next session by filing a written application with the Bursar before July 1, but they may not sub-let their rooms, or reserve them for other students.

Rooms may be exchanged only through the Bursar, and no exchanges may be made in April or May.

Vacant rooms will be assigned in the order of application.

The period for which rooms are rented extends to the close of the term.

All dormitory rooms will be inspected periodically and students will be charged for any damage done to the rooms or the furniture. Occupants who create or permit disorder in their rooms, who interfere with the comfort of other students, or who deface or destroy the property, will be dismissed from the building at once.

Tampering with electric lights creates a danger of fire and will not be tolerated.

Where picture moulding is furnished, students will not drive nails, tacks, or pins into the walls.

Application for repairs should be made at the Bursar's office.

Students' Aid Fund

The Students' Aid Fund, originating in a plan suggested by Mr. J. W. Denmark while a student here, has grown until it now amounts to about seventeen thousand dollars. It is being constantly augmented by contributions from generous friends as well as by the interest accruing on its loans. Hundreds of young men, many of them now filling positions of prominence and usefulness, have enjoyed its help. Its purpose is to enlarge the opportunities of ambitious youths; its plan is to make cash loans at five per cent interest for expenses other than tuition to worthy, non-ministerial students. The maximum amount available is \$30.00 per term. Prospective students are invited to correspond with the treasurer, Dr. J. H. Gorrell, Wake Forest, North Carolina.

Form of Bequest

Those who wish to remember the College in their wills should employ the following form :

"I give, devise, and bequeath to the Trustees of Wake Forest College, for the endowment of said College, the sum of dollars."
